Fire Curtain Arbor Release

- Releases the arbor, allowing a manually operated straight lift fire curtain to close
- Dependable operation easier to use and reset than traditional free end ball systems •
- Simple installation for new or existing stages •
- Our unique design ensures dependable operation; the ring and line on the left are attached to the bottom of the arbor, • keeping the curtain open;

The lever is held in place by the fire line (at right). Once the fire line is released the lever pivots, releasing the arbor and allowing the curtain to close

- ٠ Includes pivoting release lever, swivel eye awning pulley with shackle, and ring
- Three-year warranty against defects in materials or workmanship is provided on all J.R. Clancy equipment, additional warranty information is available at jrclancy.com
