

Get On A Roll
Individual seats for Special Needs companion seating are equipped with a wheel bracket so they can be easily rolled into place when needed. A simple release pedal will disengage the wheels.

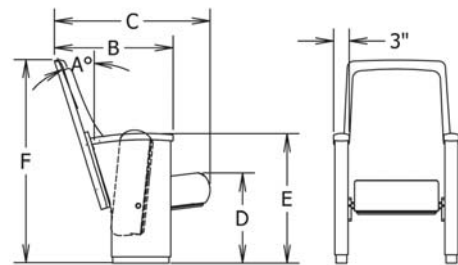

Unsurpassed Elegance and Style
Every Wenger seat displays a consistent elegant appearance with seat backs and seat bottoms sized to match every seat width.

Wenger®
Your Performance Partner

Wenger®
Your Performance Partner

A history of quality and a world leader in performance equipment.

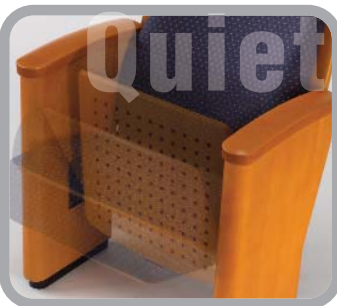

Our founder, Harry Wenger spent a lot of time on stage and knew the importance of having the right equipment for performers. Today, Wenger Corporation provides an array of innovative, high-quality solutions for performance facilities around the world. Fixed Audience Seating is the newest addition to our portfolio of products.

Each of our styles is handcrafted and ergonomically designed with lumbar support for lasting quality and superior comfort – the very hallmarks of the Wenger name. And because they come from Wenger, you know your new seating will be right on spec, right on budget, and right on time. That's a promise we first made in 1946 and continue to honor today.

Noise caused by the up-and-down movement of seats can be a major distraction during a performance. Wenger has designed seats with an extremely efficient and quiet lifting mechanism.

Feature Rich Designs

- A wide range of stain-resistant upholstery fabrics and patterns
- A wide variety of premium quality veneers and stain finishes
- Wood arm rests with smooth finishes
- Widths from 19" (48.2 cm) through 23" (58.4 cm)
- Automatic self-rise, three-quarter fold seat for easier access and exit
- High-end wood seat bottoms, backs and end panels
- ADA access options available

Shhhhhh. Any sound from the audience can be a distraction during a performance – and that includes loud seats. Wenger designed a spring plus damper driven lifting mechanism for extremely quiet operation.

A better seat
Our rounded waterfall seat front promotes better circulation and encourages a natural curve to help maintain comfort throughout the performance.

11 ply veneered plywood for durability and a smooth attractive finish.

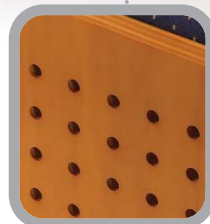

Donor plates

Aisle lighting with aisle plate

Seat number plates

Acoustical Option
All seat models are available with perforated seat bottoms for additional sound absorption.

Series 100

The most economical solution for fixed audience seating that combines lasting comfort with attractive styling.

Series 200

Handcrafted seats with fine wood finishes and premium fabrics.

Series 300

Handcrafted with fine wood finishes and premium fabrics like the Series 200 but includes a pedestal base for HVAC installations.

Fabrics and Finishes

Wenger offers an almost unlimited selection of high quality upholstery and wood finishes to complement any performance venue design.

Unlimited possibilities.

Three styles, a multitude of finishes and a large selection of fabrics mean you can get exactly the look you want.
