

Shelving System

[TECHNICAL SHEET]

GearBoss® Shelving System

GearBoss Shelving is designed for needs all over the facility from athletics to fine arts to general storage areas. The unique design provides cantilevered shelves keeping areas underneath free from supports and available for carts and mobile storage. The system is easily installed and shelves and accessories can be adjusted quickly without tools. GearBoss Shelving comes in standard bays that are 4' wide and 8' high (122 x 244 cm) and can be mounted on block wall and wood or metal stud walls.

Intended Use

- The GearBoss Shelving System is intended to maximize storage density in areas where there is storage need and space limitations.
- The GearBoss Shelving System is intended for indoor use in normal ambient temperature and humidity conditions - components must not be exposed to prolonged outside weather conditions.
