

TOTAL STORAGE SOLUTIONS

WHERE TO BEST STORE IT ALL, THAT'S THE TOUGH QUESTION.

Instruments of every size and shape, some delicate, some cumbersome, all needing a dedicated space. Enough garments, flags, and props to fill a showroom. And more sheet music than you can count.

Where do you put it all – in a way that keeps it accessible, but also secure and well protected?

How do you make sure storage not only doesn't impede traffic flow, but in fact enhances it?

How important is ventilation?

And what about durability?

What attributes define great storage?

Do you need to sacrifice aesthetics for function?

What kind of options do you have?

And where in the world do you start?

Determining the right storage solution is tricky, if not overwhelming, unless you know who to call.

YOU'RE NOT ALONE

Throughout our history we have heard from teachers and administrators about the difficulties they have all faced balancing their storage needs. Space issues. Tight budgets. Congestion between classes. The sheer amount they need to store. What you're facing is complex and isn't a decision you want to rush.

Wenger[®]
Your Performance Partner

WENGER IS YOUR EASY, FULL-RESOURCE SOLUTION

With so much to consider you may hardly know where to begin, but a call to Wenger is the answer.

Whatever you need to store, we have the ideal solution for your space and budget. We also bring a unique dual expertise — music education and storage — that we will help you leverage to your ultimate advantage.

Please keep in mind creating a customized storage solution that optimizes your space and dollars within the context of your specific storage requirements is a process that requires a close look at your needs and a close relationship with an expert. Work with Wenger and you will benefit from an expertise earned by working with situations just like yours.

Whether you are new school ready to order your first products or a school in need of better replacements, we're excited to talk with you about how we can put our products and experience to work for you and your facility.

TESTED EVERY DAY, ALL AROUND THE WORLD.

One thing experience has taught us: Students hang on locker doors, so we load-test ours with more than 300 lb (136 kg) of pressure on the outer edge. We know easy theft is the most likely theft, and to prevent that our patented lock-bar is 12-gauge steel, the strike plate heavy-duty, and our locks tamper-resistant. And we've seen how daily wear-and-tear shortens product life and steals good looks, and that's why Wenger products are built so well and keep looking that way.

Chapman Middle School, Chapman, Kansas

AT YOUR SERVICE SINCE 1946

Wenger Corporation was founded by a music teacher to provide innovative, high-quality products and solutions otherwise unavailable for music and theatre education and performance. In the ensuing decades we've pioneered most of the advancements that promote superior instrument storage. Much of our expertise has been generated by listening to our customers and spending time in their environments, where not just any products survive and fewer still help a program thrive. Ours do and we would relish the opportunity to provide great solutions for you.

Over the past 65 years Wenger has helped hundreds of schools and performance facilities make better use of their storage space. It starts with understanding your needs and smart planning. It ends with well-organized and well-constructed storage cabinets, shelving and carts that enhance your facility and protect your investments in instruments, apparel and equipment.

No two facilities are the same and we approach every opportunity with a keen understanding of the challenges these spaces face. We listen to your storage frustrations and goals before creating a unique solution that's just right for you and your budget. We find solutions that will work today and years in the future.

Rather than relying on a standard, one-size-fits-all approach, Wenger applies a broad perspective to develop tailored solutions. Here are two recent examples:

CHAPMAN MIDDLE SCHOOL AND CHAPMAN HIGH SCHOOL, CHAPMAN, KANSAS

After a June 2008 tornado destroyed both schools, rebuilding efforts involved selecting unique Wenger storage solutions, including UltraStor™ storage cabinets for instruments, GearBoss® carts and shelving for phy ed equipment and GearBoss shelving for drama storage.

Here's what the three Kansas customers had to say:

"The GearBoss shelving makes it easier to organize the equipment room. The Team Cart helps move big items out to the gym – there are hundreds of ways we can use it. Both are very nice to have."

– Derek Berns, Physical Education Teacher

"I cannot say enough positives about Wenger cabinets. I really like the short cabinets because they give students a place to put their instruments together. These cabinets also allow me to monitor students from anywhere in the room."

– Marc Riegel, Band Director

HART HIGH SCHOOL SANTA CLARITA, CALIFORNIA

In consultation with Wenger, Hart HS considered the full range of storage options for various aspects of its music program. This included UltraStor storage cabinets for instruments, GearBoss carts for marching and concert uniforms and flexible GearBoss shelving for marching equipment.

HOW TO ORDER YOUR OWN WENGER STORAGE SOLUTION

Lindenwood University, St. Charles, Missouri

We treat every customer order the same — with prompt, courteous attention and a focus on your specific needs. Whether you need one product or a combination of many, we'll make sure you understand all of your options and then help you decide upon a solution that is ideal for you. And we guarantee we'll deliver it on time, on budget, and with uncompromising accuracy.

1. PROVIDE YOUR SPACE DIMENSIONS AND A COMPLETE LIST OF INSTRUMENTS AND OTHER GEAR TO BE STORED.

We'll help you get started in this all-important first step. Together we'll identify problems, discuss your concerns, and plan for what you have to store and what may change in the coming years. Looking ahead is as important as looking around, and we'll make sure your tailored solution is one that suits you well into the future.

2. BASED ON YOUR INPUT IN STEP 1, WE'LL PROVIDE A CUSTOM PROPOSAL.

Working together in Step 1 will yield a recommendation that accurately addresses all your requirements. In Step 2 you'll have an opportunity to see the extent of your storage solution — all the cabinets and other products required to securely store your inventory.

3. WITH YOUR APPROVAL OF STEP 2, WE'LL PROVIDE A CUSTOM LAYOUT.

Now you can really see your tailored solution taking shape. This is an opportunity to assess how all elements work together to improve convenience, security, and traffic flow.

Avon Old Farms School, Avon, Connecticut

4. WE'LL HELP YOU PLACE YOUR ORDER.

It's crucial to be confident and accurate in your order, because Wenger is famous for delivering exactly as promised and we want to make sure the solution you receive is exactly the one you want and need. At this time you'll also choose:

- the **color combination** (see bottom of page)
- the **core substrate** (choose Industrial-grade composite wood or upgrade to Fire Rated, Moisture-Resistant, Environmentally-Sensitive, Vencore Plywood or FSC Certified)
- the **type of door** you need
- the **delivery method**

Delivery options:

- Standard Tailgate delivery (customer unloads and installs)
- Inside delivery (Carrier delivers and helps your staff unload but doesn't install)
- Wenger delivery and installation

* Waterfall grille door is not available on the Edge storage system. UltraStor shown.

5. YOUR ORDER ARRIVES ON TIME AND IS READY TO BE INSTALLED.

Installation varies by product and you will know exactly how each delivered item sets up long before you order. Many UltraStor™ cabinets, for instance, arrive already constructed and each is expertly positioned and secured by Wenger technicians. The components of the Edge™ system, as part of their economic advantage, arrive unassembled and require the customer to arrange installation.

St. Mary's School, Owatonna, Minnesota

6. WE'RE READY TO HELP – ESPECIALLY AFTER THE SALE.

Wenger prides itself on providing trusted advice, solutions, and service that endures for as long as you own our products. We are always a phone call away and will come through for you, whether you need a missing bolt or something far bigger. Our reputation for providing the best service in the business was built over many, many years, and you can be sure we'll still be here for years to come, friendly, ready to help, and eager to support you however we can.

Here are some other ways Wenger is dedicated to offering you the unmatched expertise and resources you need to make the most of your program and facility:

- LEED documentation
- Professional installation
- Technical support
- Outstanding warranty coverage
- Parts and service
