Acoustical Door

- Sound isolating doors for recording, broadcast, music practice and rehearsal rooms
- Acoustic Performance: STC 50 54
- Four door widths available:
- 3' (914 mm), 3' 6' (1067 mm), 4' (1219 mm) and 6' (1829 mm)
- Four door configuration options (in each of the door leaf widths):
- No window applications not requiring any sight lines
- Narrow window 99 in² (63871 mm²) when minimal visual monitoring is required
- Small vision lite 660 in² (0.06 m²) for improved sight lines Large vision lite 1296 in² (0.84 m²) for maximum sight lines
- Door leaf thickness: 2-1/2" (64 mm) constructed of 12-gauge and 14-gauge steel skins
- Door frame constructed of 14-gauge steel
- Vision lites constructed of 1/4' and 3/8' (6 and 10 mm) laminated safety glass •
- Standard powder-coat painted gray primer for better on site finish and painting with less touch up required
- 6' (1829 mm) door uses (one each) 3' (914 mm) RH and LH leafs with a removable center mullion ٠
- Tamper resistant or no tool mullion removal
- Available UL 1-hour fire rating on solid and narrow window leafs in each door width
- Continuous cam-lift hinge prevents a potential finger hazard created by open gaps in split hinge designs ٠
- Cam-lift hinge provides automatic door sealing without relying on other mechanical types of sealing systems
- Continuous dual magnetic or compression seals provide a higher degree of sound isolation due to the uninterrupted sealing in the hinge area
- Innovative isolating crimp design provides a structural connection with minimum sound transmission between panels
- Absorptive material integrated into the door frame between magnetic seals ٠
- High quality seals and hinges provide long life with minimum adjustments (typically once every five years or 100,000 cycles) •
- Split-frame design for easier installation in many types of wall construction from 4-1/2' to 12-1/2' (114 to 318 mm) thick walls
- Stainless steel sill plate included
- Integrated frame support for sill plate ٠
- · Fiberglass backed Teflon[®] sweep seal to minimize friction in opening and closing the door
- Mortise pocket is standard for easy lever set integration
- Five-year warranty
