

HIGH-DENSITY PORTABLE AUDIENCE CHAIRS

Expertly engineered for high capacity seating.

Whether you're the staff setting up or the patron attending, these chairs are perfect for larger events. The uplift seats save space, allowing for safer, wider seating rows when unoccupied and easier passing when occupied. And with the chairs automatically returning to the storage position when lifting – no chair sets up – or stores – faster. When high capacity seating is what you're looking for, the compact seat option enables the highest density storage available. Combine these benefits with the durable X-frame design and comfortable seating options and you know you're making a wise investment.
