

# Tri-Closure Panel Accessory for StageTek® Staging System

**Basic Instructions only!**  
For more detailed product information, refer to the StageTek Staging System Owner's Manual 280A099.

**⚠ CAUTION**  
*Make sure anyone assembling or installing StageTek components has read and understands the instructions.*

**⚠ CAUTION**  
*Always comply with Warnings or Cautions in the instructions or posted on the equipment.*

**⚠ CAUTION**  
*Do not use tri-corner decks without connecting it to another deck as shown in these instructions.*

Visit the StageTek Staging System web page at [wengercorp.com](http://wengercorp.com) for more information.

**Note:** Please read and understand these instructions before assembling or setting up.  
**Note:** If you need additional information, contact Wenger Corporation using the information below.

To attach a tri-closure panel to a StageTek platform:

1. The frame of the tri-corner deck must be attached to the frame of an adjacent deck using a StageTek-to-Versalite connector.

The end of the already attached closure panel may need to be cut off as shown to fit the connector.

It is recommended that the tri-corner deck be attached to deck #1 before deck #2 especially on lower elevation decks.

2. The tri-closure panel is clipped into position using the same procedure as the other closure panels.
