

# GEARBOSS® CUSTOM TEAM ROOM LOCKERS

Football  
University of St. Thomas

## ***GearBoss lockers create a team room like no other.***

When it comes to building and maintaining a powerhouse tradition, everything matters. Attracting the staff, coaches and athletes that can take your program to the next level is a constant focus. Your facilities reflect tradition and the expectation for the future, and there is one area that will impact your players every day – the team room. The team room has evolved to be so much more than a locker room. It has to make a statement of excellence. It has to recruit. It has to function. GearBoss lockers, will make a first-class statement that will set your program apart.

Football  
IMG Academy

### ***Realize your team room vision***

Working with the Wenger team, you can create the GearBoss locker that fulfills your vision. With a variety of options and over 1,000 final configurations, we will help you choose the right shapes, sizes and finishes.

### ***Take one more step toward a more sanitary facility***

The closed-cell structure of poly-laminated surfaces are standard on every GearBoss locker and are easier to clean and more impervious to moisture and microorganisms. They are also treated with antimicrobial nano-silver technology which will last for the life of the product, creating a hostile, lethal surface for bacteria, viruses, mold and mildew.\*

### ***Durable for a lasting tradition***

With over 35 years in commercial casework Wenger has learned what it takes to survive high-performance environments. We have learned that bolt-through construction is critical for connections, hooks and doors that don't pull out. We've made every component modular and easily replaceable. So if a door, panel or seat did get damaged, it can be replaced without breaking glues and dowels or adjacent components.

### ***Airflow improves sanitation, odor and comfort***

Optional fans in the footlocker and on the football topper dry gear at an accelerated rate. This keeps odor down and equipment more sanitary and dry even between two-a-day practices. This is a clear statement to your players that you are focused on every aspect of their comfort and performance.

### ***Standard and Custom Options***

- Widths in 2" increments from 18" to 36"
- Side Shape - contour, cutback or straight
- Curved and straight rows
- Lockable cubby
- Standard and custom finish options including wood grains and solid colors
- Football helmet and shoulder pad topper (with and without fans)
- Full electronics including lighted name plate, duplex outlet, capacity for 4 fans
- Programmable, digital lock
- Hasp lock slide
- Hinged seat and enclosed foot locker with drying racks
- Fixed seat and open foot locker
- Hooks and garment bar combinations
- Additional storage cubbies
- And more customizable options

#### **Standard Laminate Options – Custom Options Available**

Hockey  
University of Minnesota

**LOCKABLE STORAGE**

#### CONTOUR CUT (as shown)

- Multi-sport and coach configuration
- Attic extension with open cubbies
- Cubby door with digital lock
- Hinged seat and vented footlocker

- Wenger maple finish color
- Lighted nameplate
- Four hooks and a garment bar
- Vent plate with school logo

### PRODUCT SPECIFICATIONS:

- Engineered with high-performance features that outperform and outlast wood veneers and cabinet-type construction
- Modularity means you can make unlikely replacements without breaking glues, dowels, or adjacent components
- Integrated bench seating eliminates the need for floor-mounted benches or folding chairs, saving valuable floor space
- Open design promotes airflow to encourage drying and reduce mildew and odor buildup and can be enhanced with optional fans
- Highly durable 3/4" (1.64 cm) thermofused composite wood core built to survive repeated rugged use in hardcore environments
- Closed-cell structure poly-laminate surfaces are easier to clean and more durable than wood veneer
- Antimicrobial laminates use nano-silver technology that lasts the life of the product and creates a hostile, lethal surface for bacteria, viruses, mold, and mildew
- 5/8" laminated wood shelf and hinged seat
- Heavy-duty PVC edge banding maintains the integrity of the laminate surface and prevents chipping and separation
- Long-lasting bolt-through construction on connections, hooks, and doors
- Widths available in 2" (5 cm) increments from 18" (46cm) to 36" (91cm)
- Three available side shape configurations: contour, cutback, and straight
- Top cubby storage
- Through bolting to connect side-by-side units allows easy removal of a single locker
- Steel base mounting fixture provides natural ventilation and height adjustment to compensate for uneven floors

# GEARBOSS® CUSTOM CASEWORK AND PASS-THROUGH CUBBIES

*Athlete Side Issue / Laundry Side*

Wenger custom casework solutions bring a higher level of function and aesthetics to athletic spaces. From lockers to pass-through laundry cubbies, Wenger will customize casework to enhance your designs. All of our solutions begin with high-quality standards including our patented polyethylene shelves designed to provide an easy-to-clean surface and to enhance air-flow. We use a polyester laminate which out-performs cheaper melamine solutions. Antimicrobial laminate options can add another line of defense against sanitation issues. Bolt-through construction means that doors and connection points will never pull out and replacement doesn't require breaking apart glue and dowel construction.

We can provide a variety of lock options from patented slide-latches designed to work with hasp locks to electronic code locks. If your designs call for a specialized solution, call your Wenger Representative for more information.

## GEARBOSS® AIRPRO™ LOCKERS

Wood Door, Open, Grille Door and Double Tier Configurations

A space saving locker design that keeps your gear more sanitary. Designed with integrated benches, AirPro lockers free up valuable real estate, creating extra floor space and a more open feel. Plus, AirPro's durable metal grid construction allows for maximum airflow and minimum hassle. They're easy to clean and laminated surfaces are more sanitary with treated antimicrobial nano-silver technology that will last the life of the product. With new AirPro lockers, your team room problems are solved.
