

GEARBOSS® WORKSTATION

The equipment room is a hub of activity.

Helmets are assembled and decaled, equipment is inspected and repaired, hundreds of jerseys and garments are folded, lunch is eaten, meetings are held. If you are using folding tables, boxes or the floor to make it happen, it's time to step up to the GearBoss Workstation. Ergonomically perfect at 42" (1067 mm) high the Workstation features a tough 1" (25 mm) wood laminate surface. The entire Workstation rolls easily on casters keeping your space transitional to ever-changing activities. Built like a GearBoss Storage Cart, you can add optional, adjustable grille shelves and locking bypass doors.

GEARBOSS® WORKSTATION

SPACE

Maximize cubic volume by densely organizing equipment in carts

MOBILITY

Effective storage that lets you roll an entire closet of gear right to the place where you are going to issue it or use it

ORGANIZATION

Create natural organization boundaries that are easily configured by team and by items

FLEXIBILITY

Shelves and racks reconfigure and easily relocate

SANITATION

Designed to provide optimum air flow

SECURITY

Designed to lock, secure, organize and inventory your equipment with lockable doors and sliding side panel options

The Wenger Advantage

Economize Space - GearBoss systems can store twice as much equipment in the same volume of space by reducing aisles and economizing cubic storage space.

Flexibility - GearBoss carts can be rearranged and reconfigured as often as you need.

Security and Organization - Improve security, inventory control and oversight with a locked and organized room.

Show your Pride - Every space is a reflection of your program and with GearBoss organization and school colors you can take pride in your equipment room.

EASY TO USE, EASY TO ACCESS, EFFICIENT STORAGE SYSTEM CAN HANDLE ALL OF YOUR UNIFORMS AND GEAR.

Convert traditional storage area into organized, secure, high-density space
