

GearBoss[®] Attic Accessory

GearBoss is an equipment storage and transportation solution designed to transform your equipment room into a point of pride. GearBoss is a high-density storage solution that uses an innovative system of tracks and rolling carts and accessories to reduce the square footage of your storage area by at least half.

GearBoss units are designed to encourage airflow and improve sanitation and odor issues. The modular system features accessories specific for the needs of bulky equipment like helmets and shoulder pads.

Intended Use

- The GearBoss system is intended for indoor use in normal ambient temperature and humidity conditions; Components must not be exposed to prolonged outside weather conditions
- Attics are designed only to be used on the 48" (1219 mm) X-Cart™
