

# GRAND BLANC HIGH SCHOOL, GRAND BLANC, MICHIGAN

## PROJECT CASE STUDY

GEARBOSS® TEAM CARTS™

### CHALLENGE

- Develop storage solutions for athletic equipment in school addition
- Organize efficient use of space

### GEARBOSS SOLUTION

GearBoss System:

- Team Carts™
- Sport Carts™

GEARBOSS® TEAM CARTS™

## BENEFITS

- High-density storage maximizes available space
- Equipment protected from damage, theft and unsanitary conditions
- Maximum flexibility to fit any school or athletic program
- Streamlined logistics for greater mobility and accessibility

## HIGHLIGHTS

“Our new school addition includes 24 GearBoss carts in two adjacent equipment storage rooms – they are working out great!” says Delaney.

Equipment organization has improved dramatically with each team’s equipment kept on its own separate cart. There is also room for expansion if extra sports or teams are added. GBHS currently has 1,200 student-athletes across fall, winter and spring seasons, comprising of 48 teams and 15 different sports.

He says their old approach involved some duplicated efforts when distributing or collecting equipment: moving equipment to a temporary location, waiting, and then moving it again. With the GearBoss System, these extra steps are now eliminated.

The mobility of the Team Carts™ also saves time because they easily roll wherever they are needed so it’s not necessary to load equipment off and on to a cart for transportation. “Everything’s there on the Team Cart – we just take off what we need,” explains Delaney.

“Before GearBoss, one of our biggest problems was keeping the equipment for a certain team all stored together in a central spot,” recalls Delaney. “We had boxes of all sizes all over the place – some fit on shelves, some didn’t. The only people who could find anything in the storage room were me and one other person.”

## PRODUCT LIST

Team Carts™, Sport Carts™

***“We’re now so much more organized, with everything stored better and vastly improved space utilization. Instead of numerous aisles, we can just roll the GearBoss carts to one side and have room to work. Our coaches who have seen the whole GearBoss System are amazed at how far we’ve come.”***

- Joe Delaney  
Head Football Coach/  
Equipment Manager
