

GEARBOSS® II HIGH-DENSITY STORAGE

A simplified high-density storage system designed with value in mind

The newest high-density storage system from Wenger adds to the success of the original GearBoss System in creating athletic equipment storage rooms that make better use of available space. With GearBoss II you get the same space-saving organization as our GearBoss Team Cart and X-Cart Systems in a simplified system with a budget-friendly price. You will gain more control over the time and money lost to poor organization, lax security and misplaced inventory. This storage system is simply a better way to care for your equipment investments.

Racks roll on a track for compact storage and easy access.

GEARBOSS® II HIGH-DENSITY STORAGE

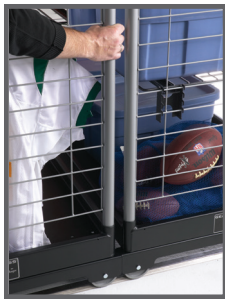

Helmets and pads don't need to be thrown in a bin or on makeshift racks. GearBoss has accessories that keep your equipment orderly and lets it breathe.

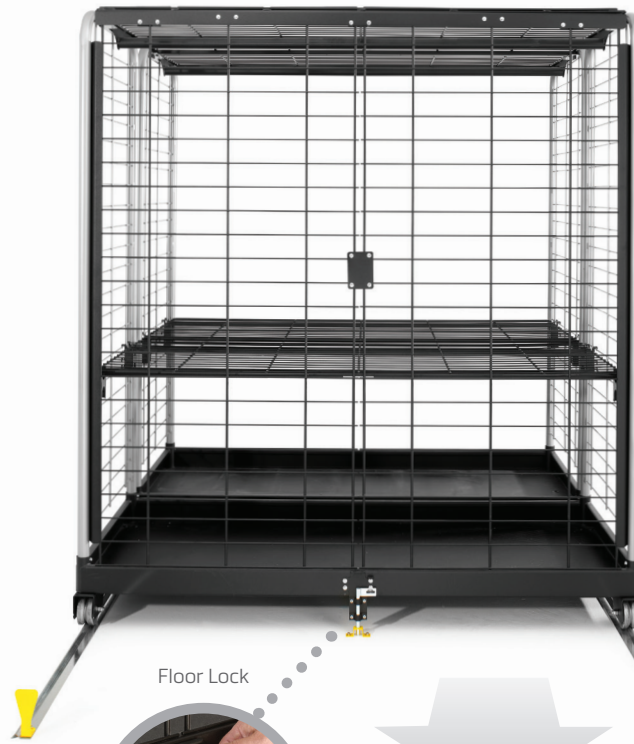

Hanger bars can be added with ease – now your jerseys can be orderly, fresh and wrinkle-free.

Depending on spacing, one cart can accommodate between 290 and 360 hung jerseys.

Load up the tops of the rack as well.

Racks butt up against each other without pinching fingers then roll back apart with ease.

Moving the storage system is easy – even when fully loaded – thanks to the smooth cast iron wheels and track.

Floor Lock

Track Stop

FEATURES:

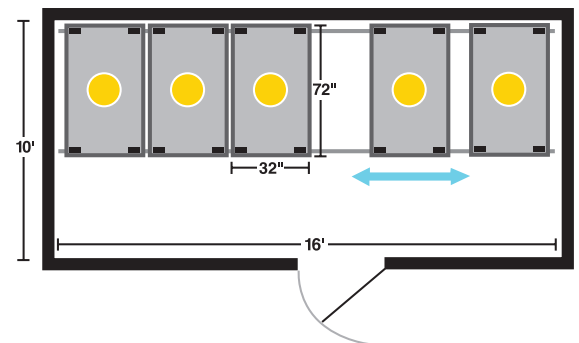

- Practical cart with robust capacity. Dimensions: 32" w x 79" h x 72" d (813 x 2007 x 1829 mm)
- Fixed track system creates a movable aisle to maximize otherwise wasted space and allow easier, more thorough access to the carts and the surrounding area
- Attractive black finish suited to any venue
- Adjustable shelf included
- Open grille engineering improves air flow and facilitates storage and accessibility

OPTIONS & ACCESSORIES:

- Garment bars
- Shelving
- Grille side panels
- Floor lock
- Track Stop

CART PLACEMENT EXAMPLE:

Fill one end of a storage room wall-to-wall
