

# GEARBOSS® CUSTOM TEAM ROOM LOCKERS

## **GearBoss lockers create a team room like no other.**

When it comes to building and maintaining a powerhouse tradition, everything matters. Attracting the staff, coaches and athletes that can take your program to the next level is a constant focus. Your facilities reflect tradition and the expectation for the future, and there is one area that will impact your players every day – the team room. The team room has evolved to be so much more than a locker room. It has to make a statement of excellence. It has to recruit. It has to function. GearBoss lockers, will make a first-class statement that will set your program apart.

IMG Academy

### Realize your team room vision

Working with the Wenger team, you can create the GearBoss locker that fulfills your vision. With a variety of options and over 1,000 final configurations, we will help you choose the right shapes, sizes and finishes.

### Take one more step toward a more sanitary facility

The closed-cell structure of poly-laminated surfaces are standard on every GearBoss locker and are easier to clean and more impervious to moisture and microorganisms. They are also treated with antimicrobial nano-silver technology which will last for the life of the product, creating a hostile, lethal surface for bacteria, viruses, mold and mildew.\*

\*Available on hundreds of GearBoss polyester laminates but may not be available on some custom laminates or real-wood veneers.

### Durable for a lasting tradition

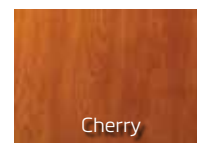

With over 35 years in commercial casework Wenger has learned what it takes to survive high-performance environments. We have learned that bolt-through construction is critical for connections, hooks and doors that don't pull out. We've made every component modular and easily replaceable. So if a door, panel or seat did get damaged, it can be replaced without breaking glues and dowels or adjacent components.

### Airflow improves sanitation, odor and comfort

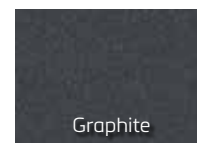

Optional fans in the footlocker and on the football topper dry gear at an accelerated rate. This keeps odor down and equipment more sanitary and dry even between two-a-day practices. This is a clear statement to your players that you are focused on every aspect of their comfort and performance.

### Standard and Custom Options

- Widths in 2" (51 mm) increments from 18" to 36" (457 to 914 mm)
- Side Shape - contour, cutback or straight
- Curved and straight rows
- Lockable cubby
- Standard and custom finish options including wood grains and solid colors
- Football helmet and shoulder pad topper (with and without fans)
- Full electronics including lighted name plate, duplex outlet, capacity for 4 fans
- Programmable, digital lock
- Hasp lock slide
- Hinged seat and enclosed foot locker with drying racks
- Fixed seat and open foot locker
- Hooks and garment bar combinations
- Additional storage cubbies
- And more customizable options

## STANDARD CONFIGURATIONS

### CUT BACK (as shown)

- Football configuration
- Cherry finish color
- Football topper unit with fans
- Lighted nameplate
- Cubby door with digital lock
- Six hooks
- Hinged seat with fans providing active airflow

### CONTOUR CUT (as shown)

- Multi-sport and coach configuration
- Wenger maple finish color
- Attic extension with open cubbies
- Lighted nameplate
- Cubby door with digital lock
- Four hooks and a garment Bar
- Hinged seat and vented footlocker
- Vent plate with school logo

### STRAIGHT CUT (as shown)

- Multi-sport/visitor configuration
- Graphite finish color
- Nameplate location at top of locker
- Open cubbies
- Four hooks and a garment bar
- Fixed seat with open footlocker
- Shelf in footlocker

## PRODUCT SPECIFICATIONS:

- Engineered with high-performance features that outperform and outlast wood veneers and cabinet-type construction
- Modularity means you can make unlikely replacements without breaking glues, dowels, or adjacent components
- Integrated bench seating eliminates the need for floor-mounted benches or folding chairs, saving valuable floor space
- Open design promotes airflow to encourage drying and reduce mildew and odor buildup and can be enhanced with optional fans
- Highly durable  $\frac{3}{4}$ " (19 mm) thermofused composite wood core built to survive repeated rugged use in hardcore environments
- Closed-cell structure poly-laminate surfaces are easier to clean and more durable than wood veneer
- Antimicrobial laminates use nano-silver technology that lasts the life of the product and creates a hostile, lethal surface for bacteria, viruses, mold, and mildew
- $\frac{5}{8}$ " (16 mm) laminated wood shelf and hinged seat
- Heavy-duty PVC edge banding maintains the integrity of the laminate surface and prevents chipping and separation
- Long-lasting bolt-through construction on connections, hooks, and doors
- Widths available in 2" (51 mm) increments from 18" to 36" (457 to 914 mm)
- Three available side shape configurations: contour, cutback, and straight
- Top cubby storage
- Through bolting to connect side-by-side units allows easy removal of a single locker
- Steel base mounting fixture provides natural ventilation and height adjustment to compensate for uneven floors

# CUSTOM CASEWORK AND \ PASS-THROUGH CUBBIES

Athlete Side / Issue / Laundry Side

Wenger custom casework solutions bring a higher level of function and aesthetics to athletic spaces. From lockers to pass-through laundry cubbies, Wenger will customize casework to enhance your designs. All of our solutions begin with high-quality standards including our patented polyethylene shelves designed to provide an easy-to-clean surface and to enhance air-flow. We use a polyester laminate which out-performs cheaper melamine solutions. Antimicrobial laminate options can add another line of defense against sanitation issues. Bolt-through construction means that doors and connection points will never pull out and replacement doesn't require breaking apart glue and dowel construction. We can provide a variety of lock options from patented slide-latches designed to work with hasp locks to electronic code locks. If your designs call for a specialized solution, call your Wenger Representative for more information.

## GEARBOSS® AIRPRO™ LOCKERS

Wood Door, Open, Grille Door and Double Tier Configurations

A space saving locker design that keeps your gear more sanitary. Designed with integrated benches, AirPro lockers free up valuable real estate, creating extra floor space and a more open feel. Plus, AirPro's durable metal grid construction allows for maximum airflow and minimum hassle. They're easy to clean and laminated surfaces are more sanitary with treated antimicrobial nano-silver technology that will last the life of the product. With new AirPro lockers, your team room problems are solved.
