

# Spikemark Vantis™

Spikemark Vantis pendant is the hand-held console for safe, simple facility moves. It pairs an intuitive touchscreen, responsive joystick, and presets with Spikemark software behind the scenes. Jog a single axis or a group of machines. Trigger point-to-point moves and recall presets. The display shows all stage movement so you stay in control.

## Applications

Spikemark Vantis pendant is designed for K-12, roadhouses, corporate theaters, houses of worship, and lecture halls. Wherever simple movement is required and performance cueing is not yet a reality.

## Key Features

- Unlimited axes
  - Only move what you see on screen
  - Joystick for manual variable speed jogging
  - Group motion control
  - Unlimited user recordable targets (spikes)
