

SceneControl™ 12 Motion Control System

SceneControl 12 is an ergonomic handheld mobile control console that allows the operator to move around the stage and see the moving equipment. The 12" touchscreen with a resolution of 1920 x 1200 offers a crisp display to easily interface with individual hoists, targets, presets, or program and run a show.

Applications

Venues needing advanced motion control capabilities in a compact mobile package.

Features

- Mobile handheld console to allow operator to move around the stage to see moving equipment
- Ergonomic design
- Unique user IDs and passwords give the ability to restrict functions and change user interface
- Unlimited programming of shows
- Unlimited numbers of cues per show
- Up to 36 channels (axes)
- External USB ports for copying files or connecting approved input devices
- Multiple consoles can be networked together (requires network storage device)
- Motion commands initiated and maintained by hard-wired, illuminated push buttons that are not part of any touch screen function
- Start/Stop on axis multiple times within a cue or send an axis to multiple targets
- Run more than one cue at a time
- Change the speed of an axis in motion with joystick
- Create motion profiles based on time or velocity
- Multi-language supporting English plus two additional languages. Accepts input of Western, Russian, Asian and Arabic characters
- Data can be presented in units of feet/inches, decimal feet, millimeters, meters or as a percentage
- Grouping with the ability to synchronize any number of hoists into a control group
- Create an unlimited set of macros for frequently used functions
- System critical actions are recorded and automatically saved in a time-stamped file

Options

- SIL3 Emergency Stop Upgrade
- Load Sensing and Learning
- Server or Network Storage Space (NAS)
- Remote access to a service technician via a secure access device

Specifications

- Unlimited programming of shows
- Up to 36 channels (axes)
- Multilingual interface
- Unlimited numbers of cues per show
- Synchronized group operation
- Illuminated STOP/GO buttons
- Joystick with ENABLE button

Safety

- Emergency Stop Operator
- Safety constraint algorithms
- Status/Alarm page
- Hold-to-Run
- Multi-level security
- Event log

Networking and Processing

- Networks with other J.R. Clancy consoles

Monitors and Screens

- 12" Touch Screen

Dimensions

- 15" w x 3-7/8" d x 9-1/2" h (381 x 98 x 241 mm)

System

- Operating System: MS Windows
- Motion Control Software: Raynok for J.R. Clancy

Warranty and Support

Three-Year Warranty against defects in materials or workmanship is provided on all J.R. Clancy equipment. Our warranty is contingent on operation by trained personnel and an annual equipment inspection of a J.R. Clancy authorized technician.

24/7 factory technical support with additional service and assistance provided by a worldwide network of J.R. Clancy authorized dealers.

Inspection and maintenance are available through J.R. Clancy's T.I.M.[®] (Train, Inspect, Maintain) Program. For more information call 1-800-836-1885 or email service@jrclancy.com.

Additional Information

Additional information on J.R. Clancy systems is available at www.jrclancy.com.
