

SCOREBOARD HOIST

Designed for Safety & Manufactured for Excellence

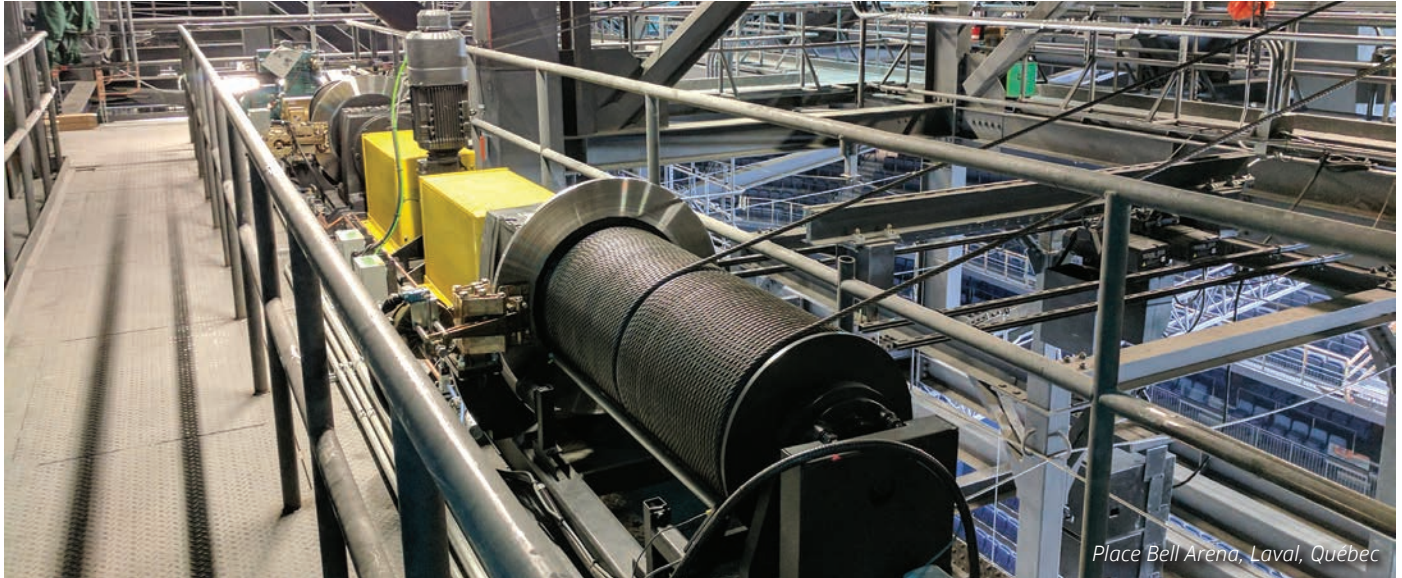

For over 130 years, J.R. Clancy has been the trusted source for safe and affordable rigging for theatres, event venues and arenas. J.R. Clancy has played a key role in designing and implementing some of the largest event equipment systems worldwide. From educational facilities to the world's largest arenas, the customizable Scoreboard Hoist is manufactured to accommodate your facility's unique requirements.

"We needed the new hoist after upgrading to a much larger videoboard/ scoreboard that was considerably heavier than our previous scoreboard. We were also concerned with our building infrastructure as we needed a large hoist, but had weight restrictions as our building structure was constructed in 1957 and would not support a very heavy hoist. The folks from J.R. Clancy worked with our scoreboard company to come up with a great solution."

– Matt Kulik, Assistant Athletic Director for Facilities, Western Michigan University

*Place Bell Arena, Laval, Québec***EASE OF OPERATION**

By using J.R. Clancy motion control systems, you can easily raise your scoreboard in and out of position. With additional features including load sensing, targeting and position tracking, the scoreboard hoist is designed to make operation simple, safe and reliable.

CONTROLS

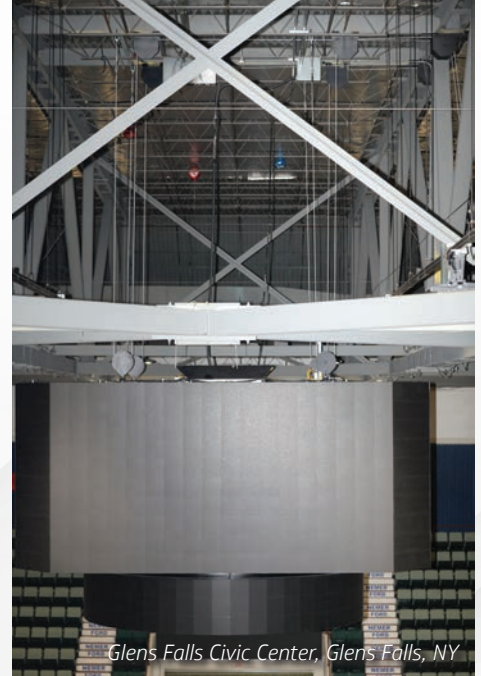

The scoreboard hoist works with the entire range of J.R. Clancy motion controls—including both wired and wireless options. The J.R. Clancy system can tie-in the controls of the center-hung scoreboard with speaker clusters, upper bowl reduction curtains, hockey netting, house-supplied chain motors, hoist-mounted architectural lighting and many other arena automation components.

FULL SERVICE

J.R. Clancy's unparalleled rigging expertise, project management and installation capabilities ensure a smooth scoreboard project from start to finish.

FEATURES

- Center-hung, high-capacity scoreboard hoist
- Numerous configuration possibilities including:
 - Zero fleet
 - Versatile mounting for projects with limited space
 - Single drum hoists
 - Self-climbing hoists
 - Multi-drum hoists with multi-part reeved cables
- Three-year warranty
