

Congratulations on your purchase of StageTek!
The most flexible, versatile and easy to use staging system available.
Just follow these four steps.

1) Confirm the delivery location:

Make sure that your facility can receive this shipment.
Pallet sizes vary between 4'x8' | 4'x6' | 3'x8'.

Caution: Individual decks can weigh up to 107lbs.

2) Line up your crew:

Depending on the size of your order, Wenger recommends at least two people to receive and unload the items from the truck.

3) Cut the bands:

The new staging system will arrive securely banded to a pallet.
Simply cut the bands and remove the shrink wrap to offload the platforms and accessories.

Note: Loose parts may be packed in between the decks.

4) Set-Up:

StageTek Staging is quick and easy to set-up.
