SECURE STORAGE STARTS WITH GEARBOSS

The average suburban school has well over \$1.5 million in athletics equipment. Keeping an eye on your investment is increasingly important. Every helmet, jersey and warm-up that leaves the building is one you will have to replace. That's why GearBoss by Wenger provides increased levels of security over traditional shelves and cages. Each cart can be securely locked to keep your gear where you leave it.

- Lockable doors and sliding side panels on all carts secure everything inside.
- Secure those logo items that seem to walk off on their own.
- Knowing what you have, at-a-glance, will increase the chances you notice something is missing.

You wouldn't leave your stadium doors, practice field or gym unlocked. Your program has a significant investment in equipment. Make sure that you keep it as safe as you can. With GearBoss by Wenger, you always know what's in and what's out and when its not in use you can lock it up. Equipment that is organized and secure is more difficult to pilfer.

"With the number of alumni, recruits and students we have coming through our athletic facilities, we needed a safe and secure storage solution for our sports equipment. GearBoss by Wenger met that need head on. The locking carts give me the extra sense of security I need in such a large program."

*- Don Barnes, Director of Equipment and Operations
University of Missouri
Columbia, MO*
