

SELECT LAB WORKSTATION

Expanded features for your advanced needs.

Our new Select Workstations have been ergonomically designed to be more comfortable by positioning music and computer equipment where they're most accessible, creating an environment where everything is within easy reach.

Wenger workstations are more functional because there is plenty of workspace and room for equipment with unobstructed sightlines and less disruption caused by stacked equipment and tangled cables. Our pull-out shelf is wide enough to choose to place a piano keyboard or computer keyboard, allowing you the flexibility to choose the right ergonomics for your students. Flip up door in the back of the desk, allows easy access to a channel below to keep cords and powerstrips accessible, but out of sight.

Many features are optional, so you can create the right solution specific to your needs and equipment. You select if you want adjustable height or a fixed height style. Choose 50" (127 cm) wide or if you have an 88 key-keyboard a 62" (157.5 cm) wide will be the right size for you. Have rack-mount components to store? You can order in 2 unit increments to get just the right amount. We offer several power options and a music holder that can be positioned where you need it.

SELECT LAB WORKSTATION

SPACIOUS

Users love the wide open freedom. There's plenty of room for a big keyboard and all the other lab tech you want. The expansive desk and shelves allow comfortable spacing for all your hands-on equipment.

TECHNOLOGICALLY SAVVY

These forward-thinking designs keep all your equipment connected, with dedicated spaces in the perfect spot. There's even a system to keep all your cables and cords neatly concealed, but within reach.

MOBILE AND ADJUSTABLE

Choose the options that are right for you. Fixed height or adjustable height. 50" (127 cm) wide or 62" (157.5 cm) wide for 88 key - keyboards. Rackmount shelf option and multiple accessories to choose from.
