

BACKSTAGE® MAKEUP STATION

FEATURES AND BENEFITS

Wenger®

Wenger Corporation Backstage Makeup Stations offer a professional look that can be set up anywhere, easily allowing for the conversion of auxiliary rooms and backstage areas to makeup studios.

Compact Dimensions

Backstage Makeup Station can be set up anywhere. Tables, countertops, road cases - whether you need additional dressing rooms for a large cast or a quick-change area backstage; anywhere you can find a flat surface, you can find a Backstage Makeup Station. The compact size makes no sacrifice to the mirror, however, providing an ample view for any performer.

Generous Illumination

Six bulbs provide excellent light for detailed makeup applications. Wenger Corporation recommends either 60w GE Reveal incandescent bulbs or 15w full spectrum fluorescents for clarity and accurate reflection of skin tones and makeup colors.

Units Nest for Reduced Storage

Store individual units together when not in use to incrementally reduce storage space.

Weighs 35 lb and steel frame doubles as carry handle

With a weight that balances stability and portability and a large, sturdy handle - Backstage Makeup Station is designed for easy transport by one person to and from the dressing area.

Convenient Rocker Switch

Single outlet and rocker switch combination are mounted on the mirror surround. GFCI protected switch controls just the lighting, allowing appliances to operate independently of lights.

Padded Dust Cover

Protects the Backstage Makeup Station when in storage.

Entire Product UL-Listed

Tested and approved to meet all applicable building codes and electrical standards for the US and Canada. Meets NEC (National Electric Code) requirements.
