

ESSENTIAL LAB WORKSTATION

Essential Lab Workstation - Economical, sleek design to meet the needs of modern labs

The Essential Lab Workstation is designed to maximize limited space and encourage collaborative sessions in the classroom. The unique C-shaped frame minimizes aisle space necessary to enter and exit the workstation and allows students to move easily from station to station. The Essential Lab comes standard widths of 32" and 42" (813 and 1067 mm), but can be customized to fit your room and your equipment in any width between 32" and 49" (813 and 1245 mm). This workstation is designed to accommodate a variety of technology and comes standard with a pull-out keyboard tray and cord management system. Built to withstand institutional use, the Essential Lab is constructed of industrial grade composite wood and reinforced with 14-gauge steel. It's tough, attractive and smartly designed to create an efficient and functional music lab in your facility.

ESSENTIAL LAB WORKSTATION

MODERN TECHNICAL DESIGN

One look says, sleek and smart. It has economical, space for PC's, iMacs, iPads, and keyboards.

ENHANCED COLLABORATION

Now, sharing inspiration is easier than ever. The C-shaped frame opens leg room under adjoining stations for a tighter, more engaged setup.

ROBUST CONSTRUCTION

It's elegant but tough, engineered to hold up to 175 lb. (78 kg.) of equipment with rock-solid stability. The ¾" (19 mm) wood desk is reinforced with a 14-gauge steel profile. The welded 16-gauge tubular steel frame has internal steel counterweights for added strength. Designed to withstand years of student use.

SPACE EFFICIENT

This design is pure streamlined strength. The compact size and proprietary frame create a smaller footprint and require less aisle space. The solid desk and pull-out shelf optimize equipment. Features like the lockable headphone holder add value. It is the essential design for limited space.
