"Wenger's strong tradition of innovation and quality has built a worldwide reputation. Our school purchased a number of Wenger products, with many features that aid our students' learning. The products are beautiful and we're very happy to have them!"

– Brent Poling, Director of Performing and Visual Arts, International School Bangkok, Thailand

"My students use the acoustical settings a lot, and I've encouraged them to experiment. Having the VAE technology helps them discover how they need to adjust their playing to different acoustical environments."

– Jennifer Mann, Band Director, Lindsay Thurber Comprehensive High School, Red Deer, Alberta, Canada

"The Wenger Diva shell surrounds you with a natural warmth, which is a very different feeling than in many places I've played. The Diva shell is easy to work with. It's really important we can handle the shell ourselves because we're a K-12 school. The ability to move such a massive shell on our own is amazing. That's the joy of working with Wenger products that are so well-engineered."

– Kevin Schafer, Director, The American International School of Muscat (TAISM), Muscat, Oman

"Having used Wenger products in the UK for many years, I knew that, upon arriving in Thailand, they would be my first port of call when sourcing new, top quality equipment for our concert hall and music department. From initial contact to safe and prompt shipment of the products, we have been totally delighted with the service received."

– Jonathan Ling, Director of Music, Shrewsbury International School, Bangkok, Thailand
