

MUSIC LIBRARY SYSTEM

Designs that save space and headaches.

You know how fast sheet music eats up space. If you're an average band, orchestra, or choir with 1,000 titles, you'll need more than ten 4-drawer file cabinets that take up 13 $\frac{1}{2}$ ' (4115 mm) of wall space. But Wenger Corporation's innovative Music Library system stores approximately that same amount of music in a single design that takes up only 5'8" (1727 mm) of wall space. It's the most space-efficient long-term music storage system ever.

The Wenger Corporation system is so fast and easy that you'll save hours of searching. You simply pull out individual units to reveal an entire wall of music at your fingertips. And the shelves are adjustable, so you can conveniently store sheet music for choral, instrumental, choral octavos and marching band — even lesson books and compilations — all in the same easy to use unit. Call to reclaim your valuable floor space and get rid of those unsightly filing cabinets today.

The Wenger Corporation Music Sorting Rack. It keeps your music organized — and you sane.

Just about the time you get everything organized right, somebody comes along and puts their music away wrong. Keeping titles sorted and put away in score order can be maddening, unless you're assisted by Wenger Corporation's Music Sorting Rack. With 46 slots identified by instrument, your students can put music away or pass it out in a hurry.

MUSIC LIBRARY SYSTEM

BEFORE

An average-size music program needs as many as 10 four-drawer file cabinets — that take up 13½' (4115 mm) feet of wall space — just to accommodate 1,000 titles.

AFTER

But Wenger Corporation's slide-out-shelf design lets you store those same 1,000 titles in a 4-unit system that takes up only 5'8" (1727 mm) of wall space.

Adjustable shelves allow you to conveniently store sheet music for choral, instrumental, choral octavos and marching band - even lesson books and compilations - all in the same easy to use unit.

Shelves feature a protective polyester laminate and are reinforced with an aluminum extrusion to prevent sagging. Extrusion includes a slot with a vinyl material for labeling.

MUSIC STORAGE COLORS

Dimensions of Individual Units	Outside Width	Closed Depth	Opened Depth	6-Shelf Height	7-Shelf Height
Standard Size Unit					
External Dimensions	16" (406 mm)	44" (1118 mm)	80" (2032 mm)	82" (2083 mm)	92½" (2350 mm)
Internal Shelf Dimensions <i>*If shelves are spaced evenly</i>	12" (305 mm)	34½" (876 mm)	34½" (876 mm)	10½" (267 mm)*	10½" (267 mm)*
Oversized Unit					
External Dimensions	19" (483 mm)	44" (1118 mm)	80" (2032 mm)	82" (2083 mm)	92½" (2350 mm)
Internal Shelf Dimensions <i>*If shelves are spaced evenly</i>	15" (381 mm)	34½" (876 mm)	34½" (876 mm)	10½" (267 mm)	10½" (267 mm)*
