### Inspection and Service

Our complete line of automated and manual rigging options—from simple to complex—have been putting motion into performances for 130 years.

Create superior sound isolation solutions not only for music rehearsal space but to keep backstage noise where it belongs – backstage.

Perfect sound in any venue with ease using our leading technologies: Virtual Acoustic Environment (VAE™), Transform™ Motorized Acoustical Banner and Transcend™ Active Acoustic System.

From shells to automated systems, we'll work closely with your acoustician to select the best solution to tune your performance venue for the best sound.

With our innovative designs, extend any stage flawlessly. Our integrated systems are extremely quiet and strong as well as incredibly spacious underneath.

Each staging, riser and platform option is strong, easy to handle and fast to set up. No matter where you perform, you'll have confidence in our support.

Create efficient and flexible seating arrangements. Our ergonomic seating is designed for quiet comfort with superb aesthetics and durability.

We offer a full line of performance space furnishings. No need to look elsewhere. Stage boxes to music stands with one call. Our attention to details big and small make a difference.

We are meticulous about all details but especially when it comes to service. Our annual inspections help protect your investment and ensure safety.
