

PIANO WORK DESK

Digital Keyboards become multimedia workstations

Today's most popular Yamaha digital pianos now have the perfect finishing touch. The Wenger Corporation Piano Work Desk attaches directly to your Yamaha digital piano, models YPG635 and DGX630, to create a stable work surface for multimedia components. This work desk gives you plenty of room for all your piano accompaniments, and all at the ideal height. Simple, stylish, and stable, it's the smart way to optimize your time at the keyboard. The attached computer shelf or work desk allows work space above digital piano. The Piano Work Desk connects at the cross brace of your piano stand for easy installation that does not require additional fasteners.

Piano stand not included
