

STAGETEK® OUTDOOR STAGING

Staging that performs – rain or shine

Traditionally, where most stages have shown their weaknesses is outdoors. Most stage materials on the market weren't designed to handle the rain, heat, humidity and cold. StageTek's new outdoor decks are built for the elements so you don't have to panic when the forecast turns murky. Plus, the simple and adjustable leg options make assembling a stage over uneven terrain fast and easy.

These new decks add to Wenger's StageTek® System that has proven itself over the past decade in thousands of schools, theatres, event centers and more. You simply can't find a more complete portable staging system that has the capability and versatility that StageTek has. It's stronger, easier to handle and faster to set up. And, it's available with all the accessories you need like stairways, guardrails, skirting and more.*

STAGETEK® OUTDOOR STAGING

- ✓ **All-Weather Design** – Aluminum deck designed for outdoor use in all types of weather. Decks have spaces for drainage and a textured surface to improve traction and reduce shine. Will not rot, peel, warp or swell. Non-combustible.
- ✓ **Strong and Stable** – Impressive load ratings that exceed performance expectations for uniform load, side load and point load.
- ✓ **Versatile** – Create any outdoor platform configuration at the height you need – even over uneven terrain. StageTek connectors and accessories help you create a safe, finished outdoor stage.
- ✓ **Storage Space** – Standard rectangular decks feature spaces under each platform unobstructed by folding frames or braces allowing for easy storage/stowage space.
- ✓ **Fast, Easy, Intuitive Setup** – Almost anyone can set up a StageTek stage – and it requires no tools. Decks are designed for safer, easier handling and feature rounded contours that are ergonomically sized for a secure power grip (closed grip).
- ✓ **Compatible** – Works with existing StageTek decks, legs and accessories.
- ✓ **Warranty** – Five-year warranty gives you peace of mind. And if any parts need to be replaced, it can be done easily with common tools.

A crew of two can set up an entire StageTek stage – with accessories – quickly. StageTek goes up without pins, tools or separate assemblies. Just slip the legs into the sockets and tighten.

StageTek's outdoor textured surface improves traction and reduces shine. Spaces for drainage ensure water doesn't pool on deck.

Decks

- Rectangular decks are available in the following sizes:
 - 4' x 4' (1219 x 1219 mm): 72 lb (33 kg)
 - 4' x 6' (1219 x 1829 mm): 102 lb (46 kg) with center leg kit: 104 lb (47 kg)
 - 4' x 8' (1219 x 2438 mm): 132 lb (60 kg) with center leg kit: 134 lb (61 kg)

Legs

Fixed Height, Adjustable and Telescopic Legs Available from 4"-120" (102 mm - 3048 mm)
