

STUDIO[®] MAKEUP STATION

FEATURES AND BENEFITS

Wenger

Wenger Studio Makeup Stations are ready to be wall mounted and hard wired, eliminating the cost and time required for custom installations.

WALL MOUNTABLE MODULAR MAKEUP STATION

Wall mounted bracket provides fast and accurate installation while flexible conduit allows for easy hard wired connection by an electrician.

SPACIOUS, STAIN-RESISTANT COUNTERTOP

Concave counter shape allows the actor to lean in to the mirror while providing ample counterspace for makeup and accessories. A handy tray keeps small items from rolling. The laminate overlay is highly resistant to stains and easily cleaned, while the matte white color helps reflect untainted light to the mirror - eliminating shadows.

DUAL-PURPOSE OVERHEAD SHELF

Designed to reflect untainted light down toward the mirror, this shelf also doubles as a handy place to store personal effects and additional makeup supplies.

MATTE-WHITE TACKBOARD

White, tackable surface for attaching makeup designs, notes, and schedules will not taint the clarity of the reflection in the mirror.

GFCI PROTECTED OUTLET AND PERSONAL LIGHT SWITCH

An easily accessible outlet provides access for electric appliances such as hair dryers and curling irons; while a rocker-type light switch allows individual makeup stations to be turned off when the master switch is on.

OPTIONAL UNDERCOUNTER STORAGE BASKET OR DRAWER

Provides storage options for makeup kits and other accessories.

AVAILABLE IN 36" AND 30" (914 AND 762 MM) WIDTH MODELS

Can be mixed and matched between sizes to utilize the entire space along a wall. The 36" (914 mm) wide is supplied with the Matte-White Tackboard.

ENTIRE PRODUCT UL-LISTED

Tested and approved to meet all applicable building codes and electrical standards for the US and Canada. Meets NEC (National Electric Code) requirements.
