In the pursuit of music perfection, much attention is paid to posture, breathing, and proper fingering. Lost in the discussion is the role of what a performer hears. What we hear when practicing helps each musician refine their skill so that when the audience is seated and the conductor raises the baton, the notes played are flawless. However, what a musician hears in a rehearsal room can be quite different than what they will hear in a larger recital hall or auditorium. The articulation and dynamics must change to suit the space.

Training the musician’s ear to understand the sound behavior of larger performance spaces is where the magic of VAE technology comes in. VAE (Virtual Acoustical Environment) lets musicians transform the acoustics of their rehearsal space with a push of a button. It’s called variable acoustics. VAE brings you nine pre-programmed acoustical simulations – each one so perfect, you simply won’t believe your ears.

Push a button and you’re transported to center stage. Push another, and you’re sitting in a gothic cathedral. This amazing technology is available for practice rooms, studios, offices and rehearsal rooms.

9 distinct practice and performance environments:

**VAE® Practice**
- Ideal for music education programs for individual and small group practice.
- Key features: Sound-isolated, free-standing practice room with variable acoustic environments and record/playback capability.
- Pre-set programs: 9 pre-set acoustical environments: Practice Room, Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral and Arena.

**Studio VAE**
- Ideal for music faculty coaching studios and existing built-in practice rooms.
- Key features: Nine different acoustical environments with free-standing control panel pedestal at your fingertips. Includes record/playback capability.
- Pre-set programs: 9 pre-set acoustical environments: Practice Room, Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral and Arena.

**VAE® Rehearsal**
- Ideal for non-rehearsal and live music rehearsal rooms.
- Key features: Professional grade speakers, microphones, and digital signal processing that transforms your rehearsal space into performance environments. Includes record/playback capability. Turn-key installation.
- Pre-set programs: 8 pre-set environments: Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral and Arena. Includes 1 customized performance space of school’s choosing.

Size configurations:
- PUB-VAE 
- VAE-15  
- VAE-20  
- VAE-25

**The Ultimate Green Room**
By precisely simulating the acoustics of your center stage, VAE creates the perfect environment for pre-concert warm-up. There’s simply no better environment for aspiring and professional musicians to prepare for a demanding performance.

**Custom environments are available with VAE Rehearsal system**
In the pursuit of music perfection, much attention is paid to posture, breathing, and proper fingering. Lost in the discussion is the role of what a performer hears. What we hear when practicing helps each musician refine their skill so that when the audience is seated and the conductor raises the baton, the notes played are flawless. However, what a musician hears in a rehearsal room can be quite different than what they will hear in a larger recital hall or auditorium. The articulation and dynamics must change to suit the space.

Training the musician’s ear to understand the sound behavior of larger performance spaces is where the magic of VAE technology comes in. VAE (Virtual Acoustical Environment) mimics the acoustics of your rehearsal space with a push of a button. We call it variable acoustics.

VAE brings you pre-programmed acoustical simulations—each one so perfect, you simply won’t believe your ears. Push a button and you’re transported to center stage. Push another, and you’re sitting in a gothic cathedral. This amazing technology is available for practice rooms, studios, offices and rehearsal rooms.

9 distinct practice and performance environments:

VAE® Practice

Ideal for music education programs for individual and small group practice.

Key features
- Sound isolated, free-standing practice room with variable acoustic environments and record/playback capability.
- Can be moved and reconfigured as needed.

Pre-set programs
- 9 pre-set acoustical environments: Practice Room, Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral, and Arena.

Size configurations
- Select sizes starting at 5'8" x 5'8" (1.5m x 1.5m)

VAE® Studio

Ideal for music faculty coaching studios and existing built-in practice rooms.

Key features
- Nine different acoustical environments with free-standing control panel pedestal at your fingertips. Includes record/playback capability.

Pre-set programs
- 9 pre-set acoustical environments: Practice Room, Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral and Arena.

Size configurations
- Suitable for studios or practice rooms up to 200 sq. ft. in size.

VAE® Rehearsal

Ideal for small educational and choral music rehearsal rooms.

Key features
- Professional grade speakers, microphones, and digital signal processing that transforms your rehearsal space into performance environments. Includes record/playback capability. Turn key installations.

Pre-set programs
- 8 pre-set environments: Baroque Room, Medium Recital Hall, Large Recital Hall, Small Auditorium, Medium Auditorium, Large Auditorium, Cathedral and Arena. Includes 1 customized performance space of school’s choosing.

Size configurations
- Adaptable to most music rehearsal rooms.
VAE Practice is the solution for individual or small groups of instrumentalists and vocalists. Built into Wenger SoundLok® Sound-Isolation Rooms with VAE technology, it is the foundation of our product line, allowing musicians to clearly hear and practice their best. The correct amount of absorption and diffusion is built into VAE Practice, ensuring musicians can hear themselves and their instrument at the right volume level. The correct amount of reflection and reverb adds texture to their sound in a way that’s so effective it will have students lining up for the chance to use the room.

SoundLok® Sound-Isolation rooms feature VAE technology that incorporates the latest state-of-the-art music practice technology. VAE incorporates the acoustic simulation capabilities of our VAE Practice in a kit that can be added to an existing room. The active acoustics are a big improvement from our old practice rooms. They help me to emanate a bigger sound. The record-playback setting is also very useful. My teacher always recommends that we should record ourselves so we can hear what needs to be fixed.”

Studio VAE® technology is a perfect complement to adding VAE Practice to existing rooms. It’s your choice.

Studio VAE® is an affordable, easy-to-install package for your own small practice or teaching space. The Studio system components offer all the same features and technology of the VAE Practice. Use Studio VAE® to create an effective and inspiring environment. Pick a concert hall environment. Step in, push a button, and your practice environment will be transported to a new acoustical environment. Students can easily download their own recording or accompaniment parts from the Studio VAE® device.

VAE Rehearsal gives your group the opportunity to practice and hear themselves in different acoustical environments. The included foot switch allows musically drier environments to be simulated that allow users to hear their practice in a way that emulates that in their performance environment. VAE can help students to a professional venue? Let VAE show your students the difference between the unique acoustics of your stages and the acoustical environments of your rehearsal rooms.

VAE® Rehearsal is a step up from typical rehearsal rooms. It allows educators to easily follow the assessment strategy recommended in the National Standards for Music Education. It’s a special occasion when your group can perform in such an impressive space. VAE can help your group what this large volume of space does to their sound! Improving the space for rehearsals makes a huge difference in your group’s ability to rehearse more on the skills and habits they’ve developed in rehearsal and less on the unfamiliar performance space. VAE Rehearsal comes with the same capabilities as all of our VAE systems and includes the ability to be programmed to move around your own auditorium.

VAE® Practice is available for multiple rooms or entire halls. Its versatility allows your group to practice more! Adding VAE technology to an existing room makes it easy to upload accompaniments or other pre-recorded pieces.

Record and Playback Equipped
VAE technology features built-in digital recording and playback, which dramatically improves the educational value of the VAE system. VAE allows you to:

• Increase your ability to carefully evaluate the progress of Improving the rehearsal space for students can help to increase their performance and record more effectively. The VAE Rehearsal gives you the ability to upload accompaniment parts from the Studio VAE® device.

VAE® Rehearsal allows educators to easily follow the assessment strategy recommended in the National Standards for Music Education. VAE Rehearsal comes with the same capabilities as all of our VAE systems and includes the ability to be programmed to move around your own auditorium.
Studio VAE®

VAE® Practice is the solution for individual or small groups of instrumentalists and vocalists. Built into Wenger SoundLok® rooms are GUARANTEED sound isolation (NRC Rating of 50) that you can concentrate fully on your music – without disturbing others. And SoundLok rooms are quieter than any room on the market now, so you’ll never hear a sound louder than 20dB quieter than any other room on the market. There’s a full-length control panel, all cables and speaker wire for complete installation. VAE incorporates the acoustic simulation capabilities of the VAE Technology.

Studio VAE® is an affordable, easy-to-install package for your own practice or teaching space. The Studio system components offer all the same features and technology of the VAE Practice. You can set it up in about an hour. The Studio VAE® system can be installed in just about any room less than 200 square feet. Wenger’s Studio VAE® allows you to convert an existing faculty studio or build a practice room that incorporates the acoustic simulation capabilities of our VAE Technology.

While quality sound isolation rooms like SoundLok are recommended, when new construction or renovation is unbekable, Studio VAE is a great option. Your students will be amazed, they will be inspired to practice more!

The following components are included: VAE digital processor, four speakers, two microphone wall absorber panels, control panel, all cables and speaker wire for complete installation.

Connect to your laptop to program your personal space. VAE can help you prepare for an important performance that takes your group what this large volume of space does to their sound!

Preparing for an important performance that takes your group what this large volume of space does to their sound!

VAE® Rehearsal

School auditions are heavily scheduled places. So trying to find time for your chapter and instrumental groups to practice on stage can be difficult. The VAE Rehearsal system will allow you to prepare for a special occasion in a large performance venue. Practicing in the dry environment of your rehearsal room can be limiting – unless you have VAE Rehearsal.

Easing the transition from the rehearsal to the performance environment allows students to focus more on the skills and habits they’ve developed in rehearsal and less on the unfamiliar performance space. VAE Rehearsal comes with the same capabilities as all of our VAE systems and includes the ability to be programmed to resequence the acoustics of your own auditorium.

SoundLok® Sound-Isolation rooms with VAE® Technology

• • • • • • • • • • • •

Wenger SoundLok rooms have VAE technology installed in them. The active acoustics are a big improvement from our old practice rooms. They help me to emanate a bigger sound. The record-playback setting is also very useful. My teacher always recommends that we should record ourselves so we can hear what needs to be fixed.

Like many Wenger products, SoundLok rooms have GUARANTEED sound isolation (NRC Rating of 50) so you can concentrate fully on your music – without disturbing others. And SoundLok rooms are quieter than any room on the market now, so you’ll never hear a sound louder than 20dB quieter than any other room on the market. There’s a full-length control panel, all cables and speaker wire for complete installation.

The biggest advantage of the Studio VAE is providing students with the opportunity to practice in different environments. The Studio Practice is a really clean environment that’s so effective it will have students lining up for practice more!

The approach to recording and playback is also very useful. My teacher always recommends that we should record ourselves so we can hear what needs to be fixed.

Students can feel like we’re rehearsing on our stage. Or we can choose an acoustical environment that incorporates the acoustic simulation capabilities of VAE Technology.

Studio VAE®

VAE Practice is the solution for individual or small groups of instrumentalists and vocalists. Built into Wenger SoundLok® Sound-Isolation Rooms, VAE technology lets you master the development of your instrument or voice in an effective and inspiring environment. Pick a concert hall to practice for an upcoming solo; a dry room to compare how your practice sounds different from that environment. Students can easily download their own recordings or accompaniment parts from the Studio VAE di -

To see the amazing, part of the interest, the VAE Rehearsal system was the ability to have a “Wayzata Auditorium” setting. The Wenger acousticians and engineers developed acoustical environments for our auditorium and music room that allowed us to take care of some of the issues we were having. Where else in our rehearsal room, we only have one or two microphones? The VAE Rehearsal gives us many options.

While quality sound isolation rooms like Studio VAE are recommended, when new installation or construction is unfeasible, Studio VAE is a great option. Your students will be amazed, they will be inspired to practice more! Students will be amazed, they will be inspired to practice more!

Connect to your laptop
– Connect to your laptop
– Use your music files or downloaded performances.

Convenient foot switch
– Provides the ability to use music files or downloaded performances on a computer or other recording device.
– Enables musicians to practice with uploaded arrangements and other pre-recorded pieces.

SoundLok® Sound-Isolation rooms with VAE® Technology

• Add a few thousand square feet to your practice room with the push of a button

VAE Practice is an affordable, easy-to-install package for your own small practice or teaching space. The Studio system components offer all the same features and technology of the VAE Practice in a kit that can be installed in just about any room less than 200 square feet.
