## VIRTUAL ACOUSTICS

“Transcend made such a big difference. Our students were shocked. They were truly in awe! Transcend has helped make Pflugerville High School the district’s flagship facility for many of its activities and performances. It’s very rewarding to see our students perform in this venue.”

– *Manny Gamez, District Fine Arts Director  
Pflugerville High School, Pflugerville, TX*

Video

“I don’t think I’ll forget that moment – when they turned on the system

# IT WAS LIKE THE WALLS DISAPPEARED.”

– *Dr. Lee Nelson, Dir. of Choral Activities,  
Wartburg College, Waverly, IA*

## TRANSCEND™ Active Acoustic System

Transcend gives you the control to improve your sound environment in virtually any space: performing arts centers, auditoriums, theatres, opera houses, arenas and worship spaces.

“As soon as they turned the system on I felt like I was immediately transported from under the balcony to right up on stage, standing right in front of the choir – It’s an amazing thing.”

– *Don Meyer, Development Officer,  
Wartburg College, Waverly, IA*

“[Before Transcend] it was difficult to get any feedback – we rely on it. Now with Transcend we have certain settings that we can rely on to help that out.”

– *Dr. Scott Muntefering,  
Trumpet player*

“With active acoustics, you really do hear differently. The more I used the system, the more things I started noticing. I could hear certain percussion instruments in the back more clearly than ever before. I plan to use it daily; it became second nature. My students’ faces lit up the first time we used the system – it was priceless! They quickly noticed they could hear parts they could not hear before.”

– Tami Goss, Band Director, Bridge City High School, Bridge City, TX

“Our VAE Rehearsal System from Wenger makes our 40-seat rehearsal room sound like a 10,000-seat arena.”

– Mark Gitch, Orchestra Director, Wayzata High School, Plymouth, MN

## “THE VAE REHEARSAL SYSTEM IS OUTSTANDING

– my students can actually experience playing in a performance environment: maintaining rhythm, tuning and pitch across the band.”

– Joel Ashbrook, Director of Bands, Central High School, San Angelo, TX

### VAE® REHEARSAL System

This is the future of music rehearsal. VAE Rehearsal can instantly change the acoustics of your practice space and help train your musicians to understand the sound behavior of larger performance spaces.

“We get a lot of students coming in to practice in my room before school, after school and even during school. I’ve had to kick students out because they were late for their next class! Any time you can inspire students to practice more, that’s a good thing.”

– Mark Gitch, Orchestra Director, Wayzata High School, Plymouth, MN

# Virtual Acoustic Technology. You won't believe your EARS!

We've changed the way you control sound within your music rehearsal rooms and performing arts spaces. No longer are you limited by walls, cubic feet, obstructions or materials. Welcome to the future of music rehearsal and performance where you have push-button acoustical control. Virtual Acoustic Technology sounds so amazing it will change how you practice and perform!

Below is a map of Virtual Acoustic installations and visit <https://www.wengercorp.com/vae.com> for demonstration locations and more information.
