STAGETEK™ STAGING SYSTEM

A portable stage and riser system that's strong, versatile and easy to set up.

THE FLEXIBILITY TO STRETCH YOUR STAGING INVESTMENT

Everything about StageTek™ is an advancement. The refined, elegant design is the result of extensive research, engineering and technical advancements in materials and manufacturing. The result is a staging system that is lighter, stronger, easier to handle and faster to set up. When it comes to stretching your investment across multiple needs like seated risers and performance stages, StageTek sets a new standard. For unlimited flexibility, an extra set of legs stored right inside your deck are all you will need – that's why we made the legs strong, simple and inexpensive. Compare Wenger's newest advancement in staging to any other option and see for yourself why your next stage will be StageTek.

STAGING

RISERS

TIERED AUDIENCE SEATING

"We're a very creative school – everyone is full of ideas – and our StageTek platforms adapt to almost anything: theatrical presentations, musicals, dance, opera or multi-department events. We're making full use of them."

– Chris Krambo, Technical Director
 Los Angeles County High School for the Arts,
 Los Angeles, California

FAST, EASY, INTUITIVE SETUP

Round legs that fit snugly and tighten with an easy twist of the knob makes StageTek setup easy for anyone.

MORE STRENGTH AND STABILITY

Our strongest stage deck ever has improved load ratings for the three most important load measurements.

MAXIMUM FLEXIBILITY

Flexibility between configurations and heights is all about the legs and that's why we made them simple, strong, easy to use and inexpensive.

IMPROVED STORAGE AND MOBILITY

Our rugged cart moves it all. Six decks and multiple sets of legs all on one smooth-rolling cart.

ADDED SAFETY

StageTek's decks are lighter and easier to grip. This means far fewer injuries to your crew's backs and toes.

STAGETEK™ STAGING SYSTEM

A portable stage and riser system that's strong, versatile and easy to set up.

STAGETEK™ STAGING SYSTEM

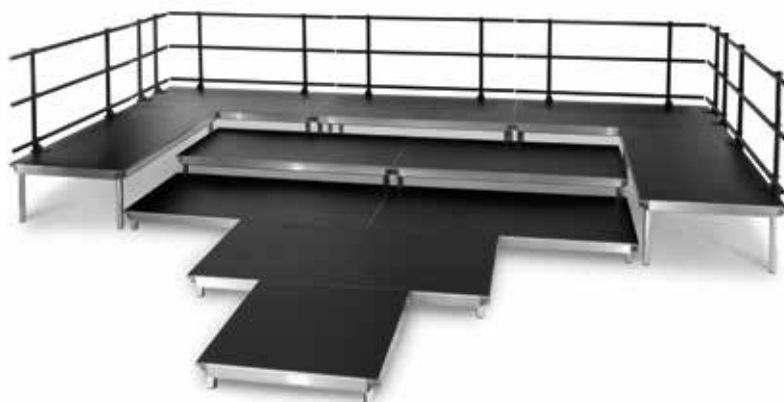

StageTek's refined, smart design is the result of extensive research, engineering and technical advancements in materials and manufacturing. The result is a staging system that is lighter, stronger, easier to handle and faster to set up. When it comes to stretching your investment across multiple needs, StageTek sets a new standard. Interchanging different sized decks, legs and other components allows you unlimited stage configuration possibilities. Compare Wenger's newest advancement in staging to any other option and see for yourself why StageTek is a better all-around platform.

- ✓ **Maximum Flexibility** – Simple, economical, plug-in legs make hundreds of configurations possible.
- ✓ **Strength & Stability** – Among the highest load ratings of comparable systems.
- ✓ **Fast, Easy, Intuitive** – Anyone can set up StageTek in minutes. No tools needed.
- ✓ **Safer** – 20% lighter deck with rounded edges for a comfortable grip. This saves backs, fingers and toes.
- ✓ **Less Storage** – Save as much as 50% in storage space with our storage and transport cart.
- ✓ **Durable and Repairable** – A field-repairable design that's also backed by a best-in-class warranty.

ORDERING INFORMATION

StageTek Staging comes in a wide variety of configurations, surface options and sizes. Please call your Wenger representative so that we can understand your needs in order to provide the best solution and an estimate to help you budget your investment.

STAGETEK™ STAGING SYSTEM

FEATURES

- Load ratings (Uniform Load, Dynamic Load and Point Load) meet or exceeds building code requirements. See website for details
- Easy-to-handle sections have lightweight aircraft-grade aluminum frames with rounded contours that are easy to grip
- Decks have cast aluminum leg sockets. Legs are quickly secured with the rotation of the knob
- Five attractive surface options. See below
- Platform Decks are ¾" (19 mm) thick and constructed of Group I veneer plywood with a protective laminate on both sides
- Standard Legs are round and fabricated from 2½" (64 mm) diameter aluminum extrusions and are finished with non-marring cap
- Legs are available in three types: Fixed height, telescopic, and adjustable height
- Fixed height legs are available in lengths that result in the following deck heights: 8", 16", 24", 32" and 40" (203, 406, 610, 813 and 1016 mm). Custom sizes available

Standard deck sizes:

- 3' x 3' (914 x 914 mm)
- 4' x 4' (1219 x 1219 mm)
- 3' x 6' (914 x 1829 mm)
- 4' x 8' (1219 x 2438 mm)
- 4' x 6' (1219 x 1829 mm)
- 3' x 8' (914 x 2438 mm)

Metric (i.e.: 1 m x 2 m) and custom sizes available.

Choose from a variety of flooring options that won't curl or peel like laminated surfaces. The Standard and Heavy-Duty surface options also provide excellent traction, even when wet, and they'll stand up to heavy use for years.

ACCESSORIES

LEG OPTIONS

Three types of legs let you set the height of your decks exactly where you want it:

- Fixed height legs
- Telescopic legs
- Adjustable height legs

CONNECTORS/BRACKETS

There may be cases where additional securing is necessary. For those instances we have three types of connectors:

- Leg-to-leg bracket
- Deck-to-leg bracket
- Overlap bracket

LEG RETENTION CLIPS

Clip legs under your decks during transport or storage. Eliminate the need for another cart or box.

GUARDRAILS

Attach quickly without tools. They meet or exceed loading and rail-height building code requirements. Special IBC-Compliant infill panels available as well.

UNIVERSAL MOVE & STORE CART

Compactly stores 6 decks or 6 sets of guardrails. Stable transport through a 3' (914 mm) doorway.

STAIRWAYS

Dual-height or Articulating stairways come with heavy-duty handrails and safety treads.

ADA-COMPLIANT RAMPS

This strong and stable ramp will connect easily with any stage setup you build.

STAGETEK™ STAGING ACCESSORIES

Adding accessories makes StageTek staging a versatile workhorse for your facility.

STAGETEK ACCESSORIES

When Wenger engineers set out to make the best staging system on the market, one goal was to ensure that the system was versatile. StageTek decks and legs can be assembled to just about any configuration you can imagine, but by adding accessories you can truly complete your stage. From stairways and rails to skirting and backdrops, we have the add-ons that make this the last stage system you'll ever buy. Consult with your Wenger sales representative to ensure you have all the accessories to meet your needs.

STAIRWAYS AND STEPS

Easy-to-attach stairways include dual heavy-duty handrails and safety treads on 3'-wide (914 mm) steps. Our **Articulating**, variable-height stair units lift or lower to a range of stage heights. Available in 3-step, 4-step, 6-step, and 8-step models. Our **Fixed-height** units come in 2-, 3-, or 4-step models. **Box steps** are available for StageTek Audience Seating.

ORDERING INFORMATION

- 281A201** 3-step Articulating Stairway for 12" - 24" (305 - 610 mm) stage heights
- 281A202** 4-step Articulating Stairway for 16" - 32" (406 - 813 mm) stage heights
- 281A203** 6-step Articulating Stairway for 24" - 48" (610 - 1219 mm) stage heights
- 281A204** 8-step Articulating Stairway for 32" - 64" (813 - 1626 mm) stage heights
- 281A100** 2-step Stairway for 16" or 24" (406 or 610 mm) stage heights
- 281A101** 3-step Stairway for 24" or 32" (610 or 813 mm) stage heights
- 281A102** 4-step Stairway for 32" or 40" (813 or 1016 mm) stage heights

Please call your Wenger representative for ordering assistance. Call for Box Step pricing. Assembly required.

UNIVERSAL GUARDRAILS

Designed for easy assembly without tools. These meet or exceed loading and rail-height building code requirements. A special IBC-Compliant infill panel (shown at right) complies with 4" (102 mm) sphere building code requirements.

ORDERING INFORMATION

- 281A404.100** 3' (914 mm) Guardrail
- 281A404.101** 4' (1219 mm) Guardrail
- 281A404.104** 5' (1524 mm) Guardrail
- 281A404.102** 6' (1829 mm) Guardrail
- 281A404.103** 8' (2438 mm) Guardrail

MOVE & STORE CART

Transports and stores 6 StageTek decks or guardrails. Holds standard and non-rectangular decks vertically for stable transport through 3' (914 mm) doorways. Assembly required.

113J001 StageTek Cart, 2'6"w x 8'd x 5'3"h (762 x 2438 x 1600 mm)

Please call your Wenger representative for ordering assistance.

STAGETEK™ STAGING ACCESSORIES

THESE ITEMS ARE CUSTOMIZED TO YOUR SPECIFIC APPLICATION. PLEASE CALL YOUR WENGER REPRESENTATIVE FOR ASSISTANCE.

CLOSURE PANELS

Front and side closure panels for Wenger seated risers cover the space between levels and enclose each end to create a finished, built-in look. Panels are finished in Standard Black or Natural.

SKIRTING & BACKDROPS

You can quickly add finishing touches to complete your stage with Wenger skirting, backdrops, and frames. Ask your Wenger representative to provide fabric samples to match your performance area color scheme.

BACKDROP FRAME

Supports a curtain up to 8' (2438 mm) tall. The frame connects to the guardrail and clamps to the legs of your deck without tools. Can be ordered to fit staging decks 3', 4', 6', and 8' (914, 1219, 1829 and 2438 mm) wide. Requires a guardrail. Curtain attaches with Velcro.

LEG RETENTION CLIPS

- Can be added to the underside of your StageTek decks
- Each set holds a 4-leg set

281A600 Leg Retention Clips

CONNECTORS/BRACKETS

For the most stable staging there may be cases where additional securing is recommended. For those instances we have:

- Leg-to-leg brackets
- Deck-to-leg bracket
- Overlap bracket

STAGETEK™ ROLL-A-DECK® KIT

StageTek platforms can be transformed into highly mobile rolling platforms with a simple kit consisting of 4 legs with locking casters and a connection bracket. With this kit your StageTek decks become the perfect drum riser or elevated production platform. Heights over 28" (711 mm) will need cross braces. Guardrails are recommended for elevations over 16" (406 mm).

280B550 StageTek Roll-a-Deck Kit (4 legs with casters)

Note: decks not included, example shown at left has two kits and two decks

PORTABLE ADA-COMPLIANT DISABILITY RAMP

This strong, stable and cost-effective ramping solution helps ensure that all performers have an equal chance to take the stage. 4'-wide (1219 mm) ramps adjust to the exact height of stage elevation. It meets all ADAAG (Americans with Disabilities Act Accessibility Guidelines) for disability access including ramp slope, handrail and landing specifications. Configurations include straight, wraparound and switchback. Features include leveling feet for precise adjustment, guardrails and connectors for a tight fit to your Wenger stage.

TROUPER® STAGING AND SEATED RISERS

An economical all-in-one staging and riser system.

TROUPER® STAGING AND SEATED RISERS

Trouper is perfect for straightforward setups that don't need to be reconfigured often. But when you do need to change, Trouper Staging's fold-out design makes it easy to do without the hazard of pinch points found in many fold-and-roll stages. Trouper staging is built with superior structural integrity and the highest quality materials to ensure reliable operation over a long life.

- ✓ **An Intuitive Fast Setup** – It doesn't get any easier than Trouper's fold-out legs.
- ✓ **Safe and Solid** – A load rating of 200 lbs per sq ft.
- ✓ **Cost Effective** – Compare the price, Trouper is one of the best values in the market.

ENDLESS STAGING POSSIBILITIES

FEATURES:

- Four standard deck sizes and elevations with optional dual-height fold-out legs offer flexibility to reconfigure your staging system
- Six fixed- or dual-height fold-out legs with six points of contact ensure extremely quiet, no-rattle performance
- Load rating meets or exceeds building code requirements
- Sturdy 16-gauge steel frame caps and protects surface finish on ¾" (19 mm) plywood deck
- Deck finish options include: Standard surface Black (Moroccan); or Grey carpeted surface
- Optional Move & Store Carts, skirting, stairs, and guardrails are also available

ORDERING INFORMATION

Please call your Wenger representative for a consultation.

STAGEHAND® STAGING

The one-person setup stage – fast and no tools required.

St. Mary's School, Owatonna, Minnesota

STAGEHAND® STAGING

It's easier to handle than any other one-person setup stage. Just roll it where you need it and the gas-assisted springs help you lower it smoothly and safely into position. And when you're done, it folds up just as easily and nests compactly. It's durable and extremely stable with a full complement of accessories that are easy to add.

- ✓ **Roll and Fold Design** – Easy, one-person setup. Just roll into place and fold it down into position. No tools needed.
- ✓ **Skid-Resistant Surface** – Ensure stable footing for your performers.
- ✓ **All-In-One Design** – Deck and legs in one design. No extra parts needed. You don't even need a cart to roll each unit away.

FEATURES:

- Easiest-to-handle fold-out design ever. Gas-assisted springs and integrated platform-to-leg connectors make setup and takedown fast and intuitive
- All-in-one system with no loose parts
- Camlock unit-to-unit connectors unite modular units into one safe, solid, rattle-free stage
- Load rating meets or exceeds building code requirements
- 16-gauge steel frame with ¾" (19 mm) plywood decks
- 4' x 8' (1219 x 2438 mm) decks with 16" and 24" (406 and 610 mm) fixed elevations; 16"/24" (406/610 mm) and 24"/32" (610/813 mm) dual-height elevations
- Folds up quickly and easily. Rolls and nests compactly

STRATA® ORCHESTRA PIT FILLER

Durable, custom-sized orchestra pit cover that fits seamlessly.

Butler University, Indianapolis, Indiana

DECKS

STRATA decks lock to the substructure with a simple hex wrench connection. Each deck is isolated from other decks to eliminate rubbing and potential noise generation.

MAIN BEAMS

Main beams connect to your stage front with a simple bracket to ensure a seamless connection with the permanent stage.

CROSS BEAMS

Cross beams attach to the main beam with a quick tube-and-socket connection – and no tools. This ensures an ideal fit even in applications with a difficult-to-match wall radius.

DIAGONAL BRACING

Braces are bolted to main beams and cross beams to eliminate loose parts and speed setup. Braces from each beam attach to columns with quick-release pins.

LEVELING FEET

on all columns

COLUMNS

Columns connect to the main beam with a quick-release pin. This smart, simple system makes switching lengths of columns – or the height of your entire pit filler – faster and easier than ever.

STRATA® ORCHESTRA PIT FILLER

Custom-designed to fit the exact specifications of your orchestra pit, STRATA® Orchestra Pit Filler installs quickly and easily with a small crew. It provides incredibly strong support while it frees up an amazing amount of space below because of our innovative column-beam design. Our acoustically dampened decks fit snugly against your existing stage to create an integrated surface that is extremely quiet.

FEATURES:

- Connects to your existing stage with ease and creates an integrated surface that is extremely quiet
- Pre-assembled substructure components make setup fast and intuitive
- Use of beams and bracing frees up a lot of open space below
- Honeycomb deck construction acoustically dampens decks and quiets "drumhead" effect
- Deck corners are constructed of glass-filled nylon to help eliminate sharp edges
- Deck surface options: natural or painted tempered hardboard, and tongue and groove wood flooring
- Leveling feet on all columns
- Basic system meets a uniform vertical load of 150 psf (732 kgf/m²)
- Deck surface takes a point load of 500 lb. (227 kg.) on a 2" (51 mm) caster without leaving permanent marks

"The STRATA Pit Filler is great – we've been completely satisfied. It's much less expensive than a hydraulic lift system and a better solution for us. Other pit filler systems looked potentially dangerous and time-consuming to work with."

– Mike Nicolai, Technical Director, Oconomowoc Arts Center, Oconomowoc, Wisconsin

UPPER DECK AUDIENCE SEATING® TIERED RISERS

Innovative black box theatre risers for versatile seating needs.

Minnesota State University, Mankato, Minnesota

FEATURES:

- Patented design offers fast, easy and safe to install and reconfigure with user-friendly assembly
- Meets building code standards for grandstand seating, including guardrails and handrails
- Simple innovative design with welded steel construction
- Maximum deck elevation: 10' (3048 mm)
- Two standard deck depths: 3' and 4' (914 and 1219 mm)
- Deck lengths are available from 4' to 8' (1219 - 2438 mm) in 1' (305 mm) increments
- Three deck surface options: Standard Black, Natural Hardboard, and Heavy-Duty Black
- Corner sections are available to create 45° and 90° angles
- Standard or custom stairways available
- Available in different configurations. (Architectural specifications are available from your Wenger representative.)

Upper Deck can be folded accordion-style when not in use. A rolling cart is available for decks.

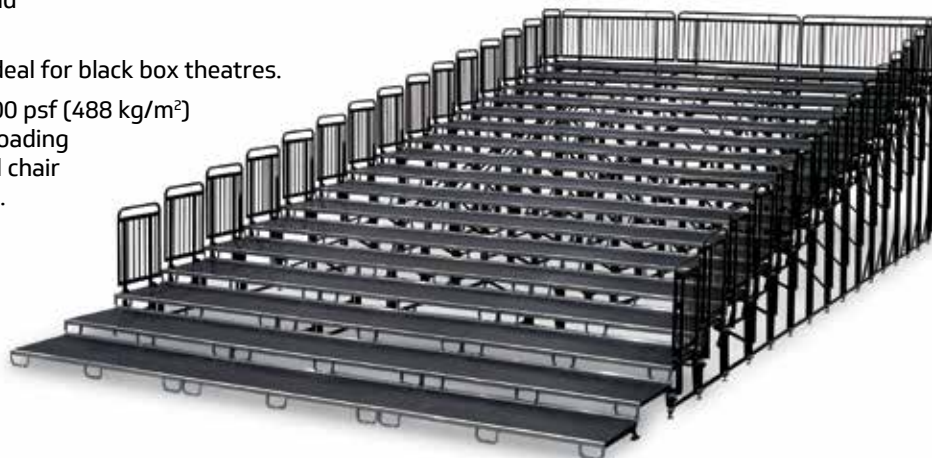

UPPER DECK AUDIENCE SEATING® TIERED RISERS

The folding frame and innovative design allow you to easily change seating configurations based on the layout of the performance. Four people can install seating for 200 in about four hours. Taking it down takes even less time. The Upper Deck system is available with corner sections for better sight lines, improved traffic flow and greater seating capacity.

- ✓ **Fast, Easy Operation – User-Friendly** – Fast, easy and safe to install and reconfigure.
- ✓ **Meets Building Code Standards** for grandstand seating, including guardrails and handrails.
- ✓ **Patented design** – Unique Wenger design is ideal for black box theatres.
- ✓ **Safety** – Exceeds a uniform vertical load of 100 psf (488 kg/m²) and side load criteria for states with seismic loading requirements. Decks are built with integrated chair stops for another level of safety and security.

Wenger Portable Audience Chairs

Building or remodeling project in your future? Talk to us first!

The success of your new facility depends on your plan. Call Wenger before you start and we'll help you plan your ideal environment, perfectly balancing budget, needs, space, and traffic like no other resource. For seven decades we've helped thousands of educators and administrators get the most out of every dollar for new construction, renovations, additions, and improvements. In fact, no other company in the world has spent more time with music educators or studied more types of music facilities.

Your Wenger representative is in tune with music performance and education and will help you make smart, cost-effective decisions on everything from product selection to space allocation to stretching a tight budget. You'll also benefit from our close working relationship with architects, ensuring your satisfaction by providing them with a trusted resource for the complexities

of rehearsal-space and performance-space design.

Please keep in mind we can also collaborate with your committee and give you the support and resources you need to persuasively present your plan. It's also important to know that from concept to completion, putting Wenger experience and expertise to work doesn't cost you a dime.

The planning process for these types of facilities can vary from project to project. Fortunately every process follows a timeline of similar steps that we can help you prepare for. From the passing of a school bond to design, bidding and construction, Wenger can help you be ready every step of the way. We can share our expertise and experience in this process to help you make yours a success.

Planning is Easier with our FREE Planning Guides:

These comprehensive guides contain everything you need to understand the new construction process and what you can do to most effectively organize your objectives to make sure your new music facility is the best it can be.

Call 1.800.493.6437 for our free literature today.

"Wenger's Planning Guide gave me some real practical ideas which we used in two junior high music facilities – they turned out very well. I'm amazed that some architects don't take advantage of the materials Wenger has available. The Planning Guide is easy to read and offers excellent information."

– Edward K. Skahan, Vice President, Director of Design, Kluber, Skahan & Associates, Inc., Batavia, Illinois

"The Planning Guide was absolutely my bible during this project. It gave me a standard to reference and included some things I never would have thought about, related to room size, space usage and acoustics."

– Marc Riegel, Band Director
Chapman Middle School, Chapman, Kansas

The Planning Process:

Products and practices that help our environment

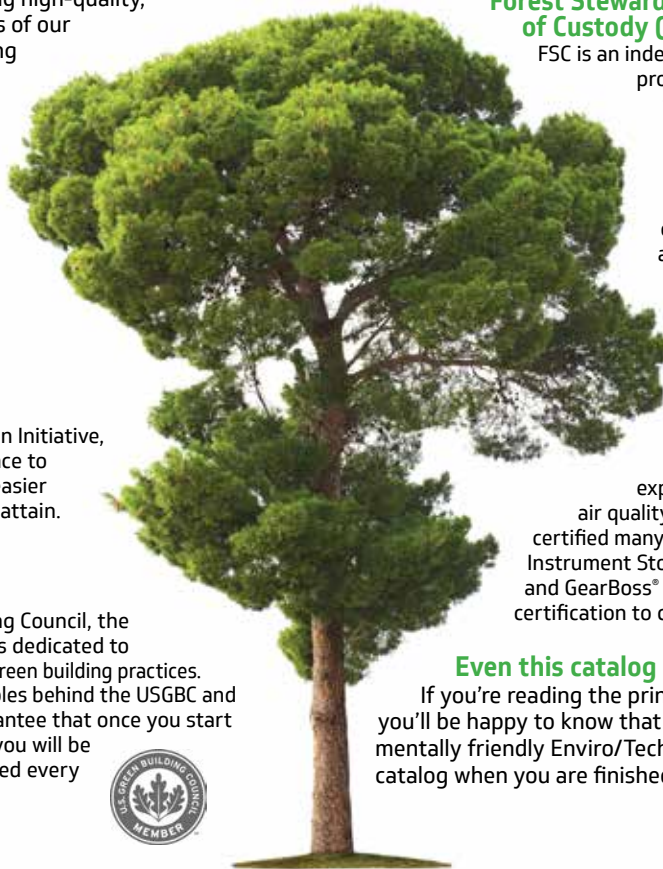

For as long as we've been developing high-quality, durable products to meet the needs of our customers, we've also been exploring ways to be better stewards of the environment we share. Whether it's the nearly 1,000 tons of materials we recycled last year or the energy-efficient lighting in our plant, our goals have always been green. Check out the green box below to see some of the ways we're helping reduce, reuse and recycle

Simplifying the LEED Certification process

As a member of the LEED Construction Initiative, Wenger has the insights and experience to make the LEED certification process easier for our customers to understand and attain.

Implementing the philosophy of the USGBC

As a member of the U.S. Green Building Council, the group that developed LEED, Wenger is dedicated to fulfilling USGBC's mission to promote green building practices. We understand and embrace the principles behind the USGBC and its LEED Initiative, which is your guarantee that once you start down the road to LEED certification, you will be officially and enthusiastically supported every step of the way. www.usgbc.org

Forest Stewardship Council® (FSC®) Chain of Custody (COC) Certificate

FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. FSC provides internationally recognized standard-setting, trademark assurance and accreditation services to companies, organizations, and communities interested in responsible forestry. www.fsc.org

Meeting UL GREENGUARD certification

The mission of UL GREENGUARD is to protect human health and quality of life through programs that help reduce chemical exposure and improve indoor air quality. To date, GREENGUARD has certified many Wenger products including Instrument Storage Cabinets, Posture Chairs and GearBoss® Storage Carts, with more certification to come. www.greenguard.org

Even this catalog is environmentally friendly

If you're reading the print version of this catalog, you'll be happy to know that it is printed with environmentally friendly Enviro/Tech ink. Please recycle this catalog when you are finished with it.

USGBC and related logo is a trademark owned by the U.S. Green Building Council and is used by permission.

At Wenger, we're making environmental strides in all phases of our business.

Products:

- GREENGUARD certification for Chairs and Stands, Instrument, Garment, and Specialty Storage Cabinets, including UltraStor™ and GearBoss Storage Carts
- Optional environmentally sensitive core material in Instrument Storage Cabinets
- High-efficiency electronic ballasts in Sound-Isolating Practice Rooms
- Wax coating on Student Chair Tablet Arm Desks eliminates emissions vs three-step solvent process
- Powder paint finishing reduces waste by 65% vs plating/solvent processes

Manufacturing:

- Precise raw material ordering eliminates waste

- Computer-optimized cutting processes improve yield
- ISO quality-improvement tools reduce scrap
- Multiple use of manufacturing cooling/rinse water before discharge
- Residual material in aerosol cans is contained and disposed of properly
- Super-insulated drying and curing ovens minimize heat loss and reduce consumption
- Green cleaning agents and a non-metallic conversion coating vs caustic finish pre-treatments
- Instant foam packaging — free of CFCs and HCFCs — used where possible
- Stretch-wrapping eliminates corrugated waste
- Pallets are reused or remanufactured

- Clean-burning diesel emission-control in Wenger delivery trucks
- Post-installation packaging is returned and reused or recycled

Operations:

- Use recycled paper, recycle all paper
- Regular facility-wide recycling collection
- Recycling drop-off for employees
- Routine collection of steel and aluminum dropoff
- Routine collection of oils used in manufacturing
- Electronic information delivery
- Advanced low-consumption plant lighting
- Smart HVAC central control system

We hear you, loud and clear.

All the incredible products in this catalog have in some way been inspired by our customers, and in many cases specific product features can be traced back to the great ideas you've shared. Every day, around the world, we talk with our customers at their facilities, over the phone, at conferences and events, and in our own focus groups. That's how we've gotten to know you and your needs so well, and how we've been able to continuously improve our product line and innovate for an entire industry for decades. Lots of companies listen to their customers, but at Wenger we also follow through, and this entire catalog is proof positive of that.

"I reviewed products from Wenger and their competitors; I was amazed at the difference. Wenger offered better quality, craftsmanship and detail."

— Justin Brinkman,
Band Director, Elmwood High
School, Bloomdale, Ohio

"Wenger was attentive and responsive through the entire process, completing the work professionally, on time and on budget – what more can you ask for!"

— Dwight Vaught, Director, Doudna
Fine Arts Center, Eastern Illinois
University, Charleston, Illinois

"I've worked with Wenger equipment for many years, at multiple schools. We've also had non-Wenger equipment. Wenger always makes the better products, products that last a long time."

— Helen Miers, Choir Director,
San Marcos High School,
San Marcos, Texas

"We've had no concerns with anything from Wenger – the products speak for themselves in terms of quality."

— Larry Adkins, Assistant Principal,
R.B. Stall High School, North
Charleston, South Carolina

"Wenger instrument storage cabinets are worth the money. They are efficient, convenient, secure and long-lasting. The easy access is unbelievable – even with 120 students in my rehearsal room."

— Cheryl Yee Glass,
Instrumental Music Director, San
Ramon Valley High School, Danville,
California

"Wenger is very easy to work with, and I appreciate the good advice I've received over the years."

— Sandra McCormick,
Band Director, Brewer High School,
Fort Worth, Texas

"I love the versatility GearBoss shelving gives our drama work room, with places to put props, boxes and hanging items. It looks like it was custom-made for this space."

— Lisa Divel, Drama Teacher, Chapman
High School, Chapman, Kansas

"We really love our Wenger products and we're very excited about the growth of our program."

— Amy Fambrough,
Choir Director, Timber Creek High
School, Keller, Texas

"I've known Wenger products for years; I never hear about any issues with Wenger quality. Buying Wenger is worth the cost long-term – it really is."

— Don Devany, Fine Arts Chair, Metea
Valley High School, Aurora, Illinois

"When you've purchased products for 40 years, you get rather blunt about it: Wenger products just work! Before becoming a principal, I was a music teacher for 25 years."

— Michael T. Thorsen, Principal
Barbara Ingram School of the Arts,
Hagerstown, Maryland

"I've been using Wenger products since my first teaching job 20 years ago. The reason is simple: consistent durability and craftsmanship you can count on."

— Dr. David Betancourt, Director of
Bands and Orchestra, Cerritos
College, Norwalk, California

"Other companies make look-alike products, but I wanted Wenger quality instead of inferior substitutes."

— Jeff Henry, Band Director,
Godley High School, Godley, Texas

Wenger representatives are the best in the business. Connect with yours today!

Whether you have a simple question about the color of a chair or a complex inquiry about acoustic solutions, your Wenger representative has the answers you need. Need help with specs, pricing, setting up delivery and installation? Just call your rep and we'll make it easy.

There are two ways to contact a Wenger representative:

- 1) Call 1-800-493-6437. Simply provide your location and we'll connect you to your rep.**
- 2) Go to our website and click on *Find A Rep* under the Contact menu.**

Terms and Conditions

PRICING

Prices are subject to change without notice. Prices shown do not include shipping and handling. In cases where payment will be made using non-U.S. currency, request a current exchange rate. For more information, please contact your Wenger representative. Instruments and accessories shown with specific Wenger products throughout the catalog are not included in the price and they do not come with the purchase of the product.

SHIPPING POLICY

Prices shown do not include shipping and handling charges because we do not use a flat rate. In order to provide you the most favorable rate we calculate the cost of each shipment individually based on size and weight. Your Wenger representative is ready to provide you with a full quote, including shipping and handling based on your location and the weight of your order. All weights listed in our catalog are product weights and not shipping weights. For exact shipping and handling charges, please ask your Wenger representative.

DELIVERY AND INSTALLATION

Wenger delivery and installation services are two great advantages of buying direct from Wenger. At your option, we will package, ship, and install your order with the care and understanding that only the product manufacturer can provide. Wenger drivers and installers are experienced professionals who are intent on meeting your needs and providing the service you expect. Wenger installation services will ensure that your Wenger investment is in perfect working order from day one and for many years of performance. Please contact your Wenger representative for exact costs for these services.

CHANGES/CANCELLATIONS

Any changes or cancellations to orders for standard product require written consent from Wenger. A 25% fee may apply if changes or cancellations occur within 15 days of shipment. Changes and/or cancellations to custom products including Customers Own Material (COM), finish matches, custom colors, rush orders, or modified products are not allowed.

DELAYS/STORAGE

Two weeks advance notice is required when any delays in shipment, delivery, or installation beyond the acknowledged ship date are necessary. The costs of storage, rehandling, additional freight, and additional installation or labor costs will be billed to the Purchaser. If goods require storage, transfer to storage will be deemed as shipment to the Purchaser for all purposes including invoicing and payment.

RETURNS

Returns are not accepted without written approval from Wenger. All authorized returns are subject to a minimum 20% restocking/rehandling fee which may be higher depending upon the product. Custom products are not returnable.

CUSTOMER SERVICE

If you have questions about your Wenger product or have any problems with your order, please call our customer service representatives at **1-800-887-7145**.

WARRANTY

Wenger products are guaranteed to be free of defects in materials and workmanship for a period as described in the Wenger Warranty statement. For complete warranty information, please contact the Wenger customer service department at **1-800-887-7145** or visit our website at **www.wengercorp.com**.
