The most trusted way to secure and protect valuable instruments. Available in a variety of colors, sizes and styles.

Instrument storage cabinets that are designed to be an integral part of your room’s acoustical treatment.

An economical and well-built storage design to house your instruments, garments and more.

Whether it’s band uniforms, choir robes, or theatre costumes, UltraStor and Edge can protect and store them safely and neatly.

Cut your sheet music storage space needs by more than 50% with our high-density storage solution.

Keep all your folios organized and right where you want them. Now in new sizes.

High-density storage carts that slide together and apart along a fixed aluminum track.

A durable and flexible shelving system for music, theatre and athletic programs.
MOBILE STORAGE

Percussion Workstation
Page 64
A lockable, mobile storage solution and practical work area all rolled into one single durable tool.

Tuba/Sousaphone Rack
Page 65
Move and store any combination of tubas and sousaphones safely and securely.

String Instrument Racks
Pages 66-67
Safely store and transport Guitars, Cellos, Basses, Violins and Violas.

GearBoss® High-Density Storage
Pages 74-75
High-density storage carts that can operate on the GearBoss floor track or roll wherever you need your gear.

Music Sorting Rack
Page 70
A portable, rolling cabinet for sorting and distributing sheet music. Works in conjunction with our Music Library System.

Rack ‘n Roll® Garment Rack
Page 77
The easy way to move garments from place to place.

Coming in 2014!
Technology and Media Storage
Fixed and mobile secure storage solutions for all your technology

FINDING THE RIGHT SOLUTION

Instruments of every size and shape, some delicate, some cumbersome, all needing a dedicated space. Enough garments, flags, and props to fill a showroom. And more sheet music than you can count. Where do you put it all – in a way that keeps it accessible, but also secure and well-protected? How do you make storage not only doesn’t impede traffic flow, but in fact enhances it? How important is ventilation? And what about durability? Do you need to sacrifice aesthetics for function? What kind of options do you have? And where in the world do you start?

Determining the right storage solution is tricky, if not overwhelming, unless you know who to call. A call to Wenger is the answer. Whatever you need to store, we have the ideal solution for your space and budget. We also bring a unique dual expertise – music education and storage – that will help you leverage to your ultimate advantage.

Creating a customized storage solution that optimizes your space and dollars within the context of your specific storage requirements is a process that requires a close look at your needs and a close relationship with an expert. Work with Wenger and you will benefit from an expertise we’ve earned by working with thousands of situations just like yours.

ORDERING INFORMATION
Wenger Instrument Storage Systems come in a wide variety of configurations, colors and sizes. Please call your Wenger representative so that we can understand your needs in order to provide the best solution and an estimate to help you budget your investment.

Tested every day, all around the world

One thing experience has taught us: students hang on cabinet doors, so we load-test ours with more than 300 lb (136 kg) of pressure on the outer edge. We also know that easy theft is the most likely theft, and to prevent that our patented lock-bar is 12-gauge steel, the strike plate heavy-duty, and tamper-resistant. And we’ve seen how daily wear-and-tear can shorten product life – that’s why Wenger products are built so well and keep looking great for years and years.

---

*"Our Wenger cabinets enable students to keep their instruments and belongings safe. With open shelves, security can be a major issue. We're very happy to have the cabinets and they're holding up really well.”*

– Oscar W. Wright, Director of Bands, R.B. Stall High School
North Charleston, South Carolina
ULTRASTOR™ STORAGE CABINETS

Our original, trusted and proven storage cabinets

Our patented polyethylene shelves are just part of the best-built, most-reliable storage cabinets available. Heavy-duty hardware and top-quality doors further ensure reliable day-to-day operation and unparalleled durability when you buy Wenger storage cabinets.

UltraStor cabinets are also designed to look great with virtually any décor. They’re available in a range of sizes, colors and styles to fit a wide variety of needs. That includes different door types for different applications. Plus, UltraStor cabinets are modular so you can rearrange and even add units as needed.

USAGE
Storage to help protect instruments and avoid traffic jams

CONSTRUCTION
• Choice of solid doors, straight grille doors or no doors
• Waterfall grille doors available for an extra charge
• Attractive polyester laminate and thermofused composite wood core resists chipping and looks new years longer than other laminates
• Load-tested hinges and lock assemblies stand up to institutional use
• Shelves feature patented ventilation ridges and rounded front edges, improving airflow crucial to musical instrument, equipment, and garment longevity
• 85¾”(217 cm), 69¾” (177 cm) and 38¾” (97 cm) heights available to meet your students’ needs. Middle school and elementary school students cannot easily reach storage compartments more than 68” (173 cm) off the floor
• Standard 27½” (69.85cm) wide and 21” (53.34 cm) narrow widths available
• Heavy-duty polyester laminate is adhered to ¾” (19 mm) thermofused industrial-grade composite wood with no added formaldehyde
• Available with right- or left-hinged (standard) doors for easy access
• Bolt-through construction maintains superior door and hardware condition, year after year
• Seismic-compliant bracing available upon request as a special order
• Available in six core substrates to meet your specific needs: fire-rated, industrial-grade composite wood with no formaldehyde (standard), moisture-resistant, FSC certified, and Vencore (plywood)
• 10-year warranty
• Available in all the color combinations shown on page 59

ORDERING INFORMATION
Wenger UltraStor Instrument Storage Cabinets come in a wide variety of configurations, colors and sizes. Please call your Wenger representative so that we can understand your needs in order to provide the best solution and an estimate to help you budget your investment.
NATIONAL INSTRUMENT STORAGE CABINET SUPPLIER

ACOUSTICABINETS®

Need to have instrument storage space in your rehearsal room? Here’s a way to minimize the loss of cubic volume, provide sound absorption, and help eliminate flutter echo caused by direct sound reflection.

After working closely with acoustical consultants, Wenger has developed an instrument storage cabinet that combines specially designed grille doors, acoustically absorptive material and reliable durability to produce storage that can help enhance the room’s acoustical performance.

SOLVE REHEARSAL ROOM STORAGE PROBLEMS WITHOUT CREATING SOUND PROBLEMS.

WITHOUT ANY TREATMENT
A rehearsal room without any cabinets or acoustic treatments will have excessive loudness, flutter echoes and could possibly cause hearing loss over extended periods of time.

WITH ORDINARY STORAGE CABINETS
A rehearsal room with instrument storage cabinets succeeds in diffusing some sound but has little effect in quieting loudness or absorbing high and low frequencies.

WITH WENGER ACOUSTICABINETS
A rehearsal room with Wenger’s new AcoustiCabinets and used in conjunction with absorber and diffuser panels can create an acoustically balanced environment. Loudness is controlled and balanced over the full audible range.

THE WENGER ADVANTAGE

WENGER INSTRUMENT STORAGE CABINETS

Durable – Load tested doors, bolt-thru construction and polyester laminate make our cabinets the ones that last.

Specially Designed Shelf – Rounded front to prevent damage to instruments, our one-piece polyethylene shelves are unique in the industry, and nearly indestructible.

Secure – Heavy-duty hardware, top quality doors, and tamper-resistant shelves keep your valuable instruments safe.

Designed for Music Needs – Wenger storage is designed to specifically meet Music Educators’ needs with the right size compartments, cabinet heights, and features specific to musical instruments and equipment. Wenger expertise simplifies the selection process for you.
THE SIZES TO FIT, YOUR SPACE, YOUR INSTRUMENTS AND YOUR NEEDS.

Those who have worked with Wenger for their instrument storage needs can attest – our expertise and experience will give you the best storage solution for your program. You’ll experience the industry’s finest construction and security within a layout that makes the most of your space while also improving traffic flow and daily convenience. Wenger cabinets also offer choices in design and aesthetics that make it easy for you to choose the ideal solution for special situations. We’ll work with you to make sure your design is exactly what you’re thinking every step of the way — that means no surprises in cost, delivery, or quality. And we’ll support you after installation, with quick response and a friendly, positive approach focused on your satisfaction. Please call and let’s start creating something perfect for you.

ULTRASTOR™ STORAGE CABINETS

38” (96.5 CM) HIGH INSTRUMENT STORAGE CABINETS

It’s the perfect height for most music classrooms and rehearsal rooms. Our unique work surface top design guarantees you plenty of space to assemble, disassemble, clean, and work with all kinds of musical instruments. The height and design provide ultimate room layout flexibility — create islands, improve supervisor sightlines, and even place cabinets under most windows.

The work surface tops are made with a tough laminate and banded on all four sides for long-wear durability. All sizes are offered as standard cabinets or AcoustiCabinets except for the General Storage cabinet, which is available with wood compartment doors.

*Add 1 1/8” (2.86 cm) to Height of Storage Cabinets when HPL work surface top is included

- Work surface tops must be specified at time of order. Color - grey nebula
- Cabinets require worksurface supplied by Wenger or customer
- Full wood doors are not available on 38” high cabinets
- Cabinets included: #50-62

Attic Storage

Do you have wasted space above your storage cabinets? Here’s the ideal dust-free, well-protected solution to making use of that space to safeguard items such as marching band equipment or even sombreros. Each Attic Storage cover is made of rugged, durable polyester that is supported by a sturdy, lightweight frame.

**USAGE**

- Perfect way to use formerly wasted space above cabinets to store equipment

**CONSTRUCTION**

- Cover protects against dust
- Frame protects equipment against damage
- Cover is lightweight, durable 600 Denier Polyester
- Cover is PVC backed (non fire-rated)
- 8 mm zipper with large pulls
- Attic floor is ¼” (2 cm) thick industrial grade composite wood with oyster laminate finish
- Load capacity not to exceed 40 lbs (18 kg) per linear foot of width
- Frame is ¾” (2 cm) steel square tube finished in black epoxy powder-coat paint

Chapman Middle School, Chapman, Kansas
STRINGED INSTRUMENT CABINET

Now you can store a variety of stringed instruments easily and securely in one location. The unique interior design allows you to configure it for storing bass, cello, violin, viola, guitar, and even Mariachi instruments such as Guitarron and Vihuela.

USAGE
Store a variety of stringed instruments securely in one location

CONSTRUCTION
• Attractive, durable construction resists chipping and looks new years longer than other laminates
• Can be configured for instruments with or without cases
• Bolt-through construction maintains superior door and hardware condition, year after year
• Removable, replaceable components ensure improved service life
• Load-tested hinges and lock assemblies stand up to institutional use
• Choice of solid doors, straight grille doors or no doors
• Waterfall grille doors available for an extra charge
• Available in seven color combinations shown at right
• Cabinet height: 85 5/8" h x 60 1/4" w x 39 1/4" d (217 cm x 153 cm x 100 cm)
• Additional conversion kits to store additional instruments available
• Optional hangers and cable lock kit available for instruments without cases.
• Heavy-duty polyester laminate is adhered to ⅝" (19 mm) thermodfused composite wood
• Available in all core materials (see page 59)
• Ships ready-to-assemble
• Ten-year warranty

Stores 2-3 Basses
Stores 3-4 Cellos
Stores 3-5 Guitarrons
Stores 14-17 Guitars
Stores 14-20 Violins/Violas/Vihuelas
Stores 7-10 Violins/Violas/Vihuelas & 3-5 Cello/Guitarrons

Body finish of all cabinets shown is Oyster. Note: Doors cannot be added later.
The Edge Storage System is packed with options, including compartment doors in wood or grille, and a door-ready design that allows you to add doors at a later date.

* Full-length door option is not available.
The innovative design is made with the same construction processes and many of the same performance features as Wenger UltraStor™ and the continuous add-on design makes it easy to store exactly what you inventory today and still perfectly adaptable to tomorrow’s needs.

**Usage**
A more economical version of our traditional instrument storage cabinets that’s configured using a variety of different-sized columns.

**Construction**
- An array of columns tailored to different storage needs (ask your Wenger representative for a list of available sizes and configurations)
- Choice of solid doors, straight grille doors or no doors
- Edging is 1/8” (3 mm) radius PVC
- Polyester laminate and thermofused composite wood core resists chipping and looks new years longer than other laminates
- Shelves feature patented ventilation ridges and rounded front edges, improving airflow crucial to musical instrument, equipment, and garment longevity
- Load-tested hinges and look assemblies stand up to institutional use
- 84” (213.36 cm) and 68” (172.72 cm) heights available to meet your students’ needs. (Middle school and elementary school students cannot easily reach storage compartments more than 68” (173 cm) off the floor)
- Wall panels are ¾” (19 mm) thick industrial-grade composite wood with polyester laminate finish
- Optional compartment doors available in right or left-hand swing include heavy-duty 5-knuckle institutional ANSI/BHMA A156.9, Grade 1 hinge with a metal to metal connection to an aluminum extrusion
- Columns have four adjustable steel support feet for uneven floors
- Optional compartment doors can be secured using standard padlocks with 1/8” (10 mm) maximum diameter x 1/16” (35 mm) wide shackle (padlocks not included)

**Building Your Storage System**
Available in over 40 column configurations, Wenger makes it easy to build a storage system that fits your needs. (As shown below, columns and shelves use the wall of the connecting column as their second wall.)

You can either install Edge yourself, or for an additional fee, Wenger will do it for you.

**Height Availability**
Edge columns are available in 68” (1.7 m) and 84” (2.1 m) heights.
PERCUSSION WORKSTATION

Just roll it into place and you’re ready to play. Wenger’s Percussion Workstation lets you take everything from cowbells to cymbals with you in a self-contained performance station.

USAGE
A lockable storage solution and practical work area that keeps percussion instruments organized and ready to play

CONSTRUCTION
• Large, extremely practical 48” x 24” (122 cm x 61 cm) worktop
• Padded top silences instruments not in use
• Four heavy-duty casters glide over any surface and provide great stability
• Four foam-lined drawers store triangles, sand blocks, brushes, drumsticks, mallets, tambourines, maracas, and other small items
• Lower compartment for parade and snare drums
• Shelves hold the largest standard-size cymbals
• Available in the colors shown below
• Ships assembled
• 10-year warranty

OPTIONS
• Cymbal Cradle, Suspended Cymbal Holder and Pop-up Music Desk

TUBA/SOUSAPHONE MOBILE STORAGE RACK

The perfect way to move and store any combination of tubas and sousaphones safely and securely. It lets you hold a full range of instrument sizes and adjusts easily. Heavy-duty casters with locking mechanisms keep the rack stable for fixed storage.

USAGE
Easy, sturdy, safe way to move and store tubas and sousaphones

CONSTRUCTION
• Available in 3-unit or 4-unit sizes
• Units are adjustable vertically to configure for multiple sizes of tubas, sousaphones or a combination of both
• Padded steel cradles are adjustable left or right to securely hold instruments in place
• Wood parts are constructed of ¾” industrial grade composite wood with no formaldehyde added
• Top cross member is constructed of 14 gauge tubular steel
• Finish is polyester laminate in Wenger standard colors
• Bottom supports are covered with flexible PVC to protect instruments
• Five-year warranty
• Assembly required

ORDERING INFORMATION
148J007 3-Unit Mobile Storage Rack, 121 lbs (55 kg)
148J008 4-Unit Mobile Storage Rack, 143 lbs (64 kg)

SOUSAPHONE & TUBA WALL BRACKET

Make sure the big brass stays up and out of everyone’s way.

USAGE
Store sousaphones and tubas out of the way

CONSTRUCTION
• Adjusts five ways to hold most tubas and sousaphones
• Mounts on sheetrock or masonry
• Durable design gently cradles and protects instruments
• Height adjusts from 17½” to 32½” (44 cm to 83 cm)
• Width adjusts from 14” to 26” (36 cm to 66 cm)
• Does not fit Miraphone Rotary Valve Tubas or Baritone Horns
• Assembly required - mounting hardware not included

ORDERING INFORMATION
049E100 Tuba and Sousaphone Wall Bracket, 14 lbs (6.4 kg)
GUITAR RACK

Wenger’s Mobile Guitar Storage Rack provides exceptional protection for acoustic and electric guitars, cased and uncased, three-quarter and full-size, even guitarrons. They also move easily anywhere in your facility, so you not only have the ideal storage solution for your guitars, but you also have the best means possible to make sure those guitars get around and get played.

USAGE
Protection and transportation for up to 20 electric or acoustic guitars, or up to 10 Mariachi guitars and guitarrons.

CONSTRUCTION
• Closed ends for extra protection
• Stores cased or uncased instruments
• Smooth-rolling design for easy transport through doorways and from storeroom to practice, rehearsal, and performance areas
• Four swivel hard rubber casters, (two with locks)
• Fits through a standard doorway
• Adjustable height upper cross supports to fit ¾ to full-size guitars
• Adjustable yokes to accommodate various styles and are removable to accommodate cased guitar storage
• Optimal security cables help prevent theft, (padlocks not included) using standard padlock
• Available in same colors as Wenger standard colors shown on page 65
• Assembly required
• Dimensions: 65 ¾”w x 29 ½”d x 72”h (170 cm x 76 cm x 176 cm)
• Five-year warranty

ORDERING INFORMATION
148J006   Mobile Guitar Storage Rack, 147 lbs (67 kg)

STRING BASS RACK

The stable design keeps string basses safe during storage and transport, and the smooth-rolling caddy lets you roll them anywhere without worrying about bumps, nicks, or scratches. Plus, the racks store flush in a compact footprint.

 USAGE
Protection and transportation for string basses

 CONSTRUCTION
• Closed ends for extra protection
• Spacing for instruments half-size and up
• Smooth-rolling design for easy transport through doorways and from storeroom to practice, rehearsal, and performance areas
• Lower cross supports are constructed of plywood core, laminated with flexible PVC edging to protect instruments
• Brass hooks let you hang bows
• 3- and 4-unit racks available
• 3-unit dimensions: 61”w x 26”d x 61”h
  (155 cm x 66 cm x 155 cm)
• 4-unit dimensions: 81½”w x 26”d x 61”h
  (206 cm x 66 cm x 155 cm)
• Racks have 2½” swivel casters with 2 front casters locking
• Available in the colors shown below

 ORDERING INFORMATION
148J003 3-unit Bass Rack, 73 lbs (33 kg)
148J004 4-unit Bass Rack, 83 lbs (38 kg)
Assembly required

VIOLIN/Viola RACK

Avoid costly damage with a smart, stable rack from Wenger. Handsome, closed-end design holds instruments in perfect position.

 USAGE
Store, protect and transport your violins and violas

 CONSTRUCTION
• Single rack accommodates 16 instruments
• Holds cased instruments half-size and up
• Easy portability
• Dimensions: 61”w x 33”d x 50½”h
  (155 cm x 84 cm x 128 cm)
• Racks have 2½” swivel casters with 2 front casters locking
• Cross supports are constructed of plywood core laminated panels with PVC edging
• Available in the colors shown below

 ORDERING INFORMATION
148J005 16-unit Violin/Viola Rack
92 lbs (42 kg)
Assembly required

Available Colors:
Cherry  Wenger Maple  Fusion Maple  Evening Tigris  Oyster  Pebble  Solar Oak

CELLO RACK

Solid, portable protection for your most fragile instruments. Stable design helps keep cellos safe during transport, and the smooth-rolling caddy lets you roll them anywhere.

 USAGE
Store, protect and transport up to six cellos

 CONSTRUCTION
• Closed ends for extra protection
• Spacing for instruments half-size and up
• Smooth-rolling design for easy transport through doorways and from storeroom to practice, rehearsal, and performance areas
• Lower cross supports are constructed of plywood core, laminated with flexible PVC edging to protect instruments
• Brass bow hooks let you hang bows
• 4-unit and 6-unit racks
• 4-unit dimensions: 49¾”w x 24”d x 47”h
  (186 cm x 61 cm x 119 cm)
• 6-unit dimensions: 73½”w x 24”d x 47”h
  (186 cm x 61 cm x 119 cm)
• Racks have 2½” swivel casters with 2 front casters locking
• Available in the colors shown below

ROBE AND UNIFORM STORAGE

At Lincoln-Way West High School, New Lenox, Illinois

This is the easy, smart way to move your bulky garments, gowns, coats, and uniforms from storage to rehearsal or performance for a fast change. The Rack ‘n Roll garment rack is heavy-duty enough to hold a full wardrobe but designed so efficiently it can easily roll through standard doorways or elevators. See page 77 for more information.

At Lindenwood University, St. Charles, Missouri

Garments are an enormous investment requiring specialized storage and Wenger offers you the best choices in the industry. Ventilation is key, keeping dust out while allowing air to circulate and moisture to dissipate before it leads to mold and mildew. Wenger’s innovative features and storage design elements have long set the standard, making sure all your robes, marching band uniforms, hats, and shoes receive the kind of storage solution their value warrants. And no matter what kind of garments you own or how many, Wenger has a wide range of solutions to fit your inventory and your budget. It’s important these items have a secure, breathable space, and we look forward to finding the best solution for your specific needs.

RACK ‘N ROLL GARMENT RACK

[A GREAT WAY TO STORE AND TRANSPORT GARMENTS]

This is the easy, smart way to move your bulky garments, gowns, coats, and uniforms from storage to rehearsal or performance for a fast change. The Rack ‘n Roll garment rack is heavy-duty enough to hold a full wardrobe but designed so efficiently it can easily roll through standard doorways or elevators. See page 77 for more information.

ONBOARD® CARGO CART

[RUGGED STORAGE CARTS MADE FOR TRANSPORT]

Perfect for transport in box trucks and trailers, OnBoard Carts are built tough with heavy-duty casters and 12-gauge steel. Outfit with shelves, garment bar or both. The number one choice of marching bands. See page 81 for more information.
ULTRASTOR™ ROBE AND UNIFORM CABSINETS

These are the premier cabinets for all your garments, hats, and shoes. UltraStor™ can be configured to your needs, giving you well-ventilated storage that keeps your clothing free from wrinkles and mildew so you can wear them right off the rack. UltraStor™ also exemplifies the epitome of Wenger engineering, giving you perfectly functional day-to-day operation and years of performance that holds up to institutional use while retaining its good looks.

- Patented polyethylene-ridged shelves last longer than any others and allow air to circulate around hats and caps
- Special venting holes help dissipate moisture, mildew, and odors
- Lockable grille (padlock supplied by owner) and solid (optional) doors prevent theft
- 2" (5 cm) hanger spacing prevents wrinkles.
- 10-year warranty

See pages 54-61 for more information and color choices.

SHEET MUSIC STORAGE

MUSIC SORTING RACK

Sort your scores by instrument and roll it from your music library to rehearsal or performance. Strong, stable design will stand up to years of use.

- Durable, smooth-rolling swivel casters let you take your sheet music anywhere
- Identifies 46 slots by instrument for easy organization
- Slots are 1” (2.5 cm) wide and 9” (23 cm) front to back
- Color options shown below
- Dimensions: 49⅜”w x 25¼”d x 35”h (122 cm x 61 cm x 89 cm)

ORDERING INFORMATION

173E050  Music Sorting Rack, 165 lbs (75 kg)
Music Sorting Rack with Doors, 203 lbs (91 kg)

Wenger’s Music Sorting Rack is available with or without doors.

Cabinet Color Options:

- Cherry
- Wenger Maple
- Fusion Maple
- Evening Tigris
- Oyster
- Pebble
- Solar Oak

Full instrumentation stickers are included with the sorting rack and provide an excellent organizational tool.
MUSIC LIBRARY SYSTEM

It shouldn’t take longer to find a piece of music than it does to play it. Our system has a patented high-density, roll-out design that’s reliable, durable and cuts storage space nearly in half compared to regular file cabinets.

If you’re an average band, orchestra or choir program with 1,000 titles, you’ll need more than ten 4-drawer file cabinets that take up 13½’ (4 m) of wall space. But our innovative Music Library System stores that same amount of music in a single design that takes up only 5’ 8" (173 cm) of wall space.

**Five 7-shelf units** shown with end cover
Boxes not included

**USAGE**
Storage options that cut sheet music storage by more than half

**CONSTRUCTION**
• High-density slide-out design minimizes storage space
• Organizes music with a systematic approach that can save hours — even days — of searching
• Roll-out design economizes space and creates a clean, organized appearance
• Designed to accommodate the majority of music filing boxes, end-tab file folders, and envelopes
• Compartment size is 10.5’h x 13’d (26.7 cm x 33 cm)
• Rugged square tubular frame
• 34½” wide plywood-core shelves coated in a protective polyester laminate
• Each unit is 44”d (112 cm) and 16”w (41 cm) in the closed position
• Total depth of each cabinet is 80” (203 cm) in the open position
• Colors: Interior, shelves and base are Oyster. End cover and front panels available in all the colors shown on page 70
• Fully loaded units can weigh up to 980 lbs. Contact Wenger for safe placement information
• See installation requirements, including minimum ceiling heights, at right
• Optional lock kit available

**ORDERING INFORMATION**
173F600 6-Shelf Music Library Unit, 260 lbs (117.9 kg)
173F700 7-Shelf Music Library Unit, 281 lbs (127.5 kg)
173E010 6-Shelf End Cover, 63 lbs (28.6 kg)
173E011 7-Shelf End Cover, 71 lbs (32.2 kg)
173E012 Optional Top Closure Kit ( Covers 5 Units), 71 lbs (32.2 kg)
173E245 Lock Kit, 1 lb. (.45 kg)
173E240 4-Pack Lock Kit, 3 lbs (1.5 kg)

**“The Music Library System is deceptive, holding a lot more than I first thought. We’re able to access sheet music very quickly and efficiently. The units also open and close easily.”**

– Basil Kerr, Band Director, Charleston County School of the Arts, North Charleston, South Carolina

To accommodate 1,000 titles, each 1” (2.5 cm) thick, an average-size program requires up to 10 four-drawer file cabinets that take up 13½’ (4.1 m) of wall space.

Wenger’s roll-out shelf design lets you store those same 1,000 titles in a 4-unit, 7-shelf system that takes up only 5’8” (1.7m) of wall space.

**HOW TO DETERMINE THE NUMBER OF UNITS YOU’LL NEED**

1. Measure your current library of sheet music in inches.
   - Filing cabinets: Measure the depth of the music in each drawer. Total depth is the total inches of all your individual drawers combined (music only).
   - Open shelving: Measure the total lineal inches of sheet music on each shelf. Music must be stacked standing straight up. Add the total of each shelf to arrive at total depth.

2. Divide total depth by the total capacity of the 6- or 7-shelf unit.

   6-shelf unit total capacity = 241½” (613 cm)
   7-shelf unit total capacity = 241½” (613 cm)

**MUSIC LIBRARY INSTALLATION REQUIREMENTS**
• We recommend installation on concrete, epoxy-coated concrete or industrial-grade carpet without a pad.
• Must be attached to a wall – not freestanding.
• Fewer than four units must be placed in a corner.
FOLIO CABINETS

TALL FOLIO CABINETS

Keep all of your folios right where you need them. Tall cabinets easily store up to 100 of your band, orchestra, or choral folios in a single, organized unit. These durable, easy-to-work-with cabinets make the most of every square-inch of space.

CONSTRUCTION

- Polyester laminate finish for added strength
- Available with adjustable shelves for both choral and band/orchestra
- Shelf supports are guided by an extruded-aluminum column with black finish
- Shelves are constructed of thermofused composite wood
- Shelf spacing is adjustable in 1/2" (1.3 cm) increments from 1" (2.5 cm) to 3" (7.5 cm) spacing intervals
- Choice of all the color combinations shown on page 73

ORDERING INFORMATION

TALL BAND/ORCHESTRA FOLIO CABINET
Dimensions: 32 7/8" w x 19 1/4" d x 84" h (84 cm x 49 cm x 213 cm)

GEARBOSS™ HIGH-DENSITY STORAGE

GEARBOSS® HIGH-DENSITY STORAGE

GearBoss high-density storage carts create more room in less space – improving space efficiency by as much as 50% – by using an innovative system of tracks and rolling carts. X-Carts are designed to move laterally on the track and stay in your storage room. Team Carts are portable and engineered with retractable track guides so you can move the equipment around the room or off campus. No more wasted time running back and forth to the storage room. Every cart can be reconfigured for maximum storage. The best solution includes a mix of X-Carts and Team Carts, and your Wenger representative will design the best solution for you. Bottom line – you’ll get a flexible storage system engineered to meet every challenge.

“Storing and transporting marching band uniforms and hats is much easier with our GearBoss Team Carts. The uniforms are well-protected and we now can get prepared faster at band reviews.”

– Bruce Tipton, Band Director
Vanden High School, Fairfield, California

USAGE
Easy to use, easy to access, efficient storage system can handle all of your uniforms and gear.

CONSTRUCTION
• Convert traditional storage area into organized, secure high-density space
• Available in two widths 32” (81 cm) and 48” (122 cm)
• Roller guides follow the track keeping the units aligned and are made of glass-filled nylon
• Intended for indoor use in normal ambient temperature and humidity conditions — must not be exposed to prolonged outside weather conditions
• Welded chassis made from 16-gauge, 14-gauge and 12-gauge components
• Upright support tubes constructed from large 2” (5 cm) diameter, 16-gauge steel tubing
• Resistant-welded heavy-duty steel wire grille end frames
• Durable powder-coat paint finishes
• Variety of colors available for wire grille ends
• Heavy-duty 6” (15 cm) wheels provide easy movement
• Roof panel constructed from solid 7/8” (1.5 cm) thermofused wood composite and with aluminum extrusions is rated for a 150 lb (67.5 kg) load
• 32” (81 cm) wide x 78” (198 cm) long x 79” (201 cm) high
• 48” (122 cm) wide x 78” (198 cm) long x 79” (201 cm) high

X-CARTS™

[HIGH DENSITY STORAGE CARTS THAT MAXIMIZE YOUR SPACE BY SLIDING TOGETHER AND APART ALONG A FIXED ALUMINUM TRACK]

Transforming your equipment room into an organized, clean, professional storage space is easy with GearBoss. Our rugged X-Carts create an efficient, smart system of storage that will save space, protect your equipment, and save you loads of time spent organizing. X-Carts roll laterally along a fixed aluminum track creating aisles between carts when you need to get at your equipment and closing back together when you don’t. Carts can be configured with a full range of panels, doors and grilles in your school colors. You can also add accessories like doors, hanger rods, shelves, dividers and more.

TEAM CARTS™

[HIGH-DENSITY STORAGE CARTS THAT CAN LEAVE THE TRACK AND TRANSPORT YOUR GEAR WHEREVER YOU NEED IT.]

Now it’s easy to get your equipment out of storage and to the auditorium, parking lot or outside – without breaking a sweat. GearBoss Team Carts retain all the convenient storage benefits of X-Carts but are engineered to leave the track. Imagine all your gear organized on one or two high-density storage carts, traveling wherever it needs to go – and back again. Or park and lock your equipment in a temporary space, instantly creating safe, secure storage anywhere.

SPORTCART™

[HIGH-DENSITY STORAGE CARTS THAT ARE PART OF YOUR LARGER GEARBOSS SOLUTION. SPORTCART’S SMALL SIZE ARE PERFECT FOR SMALLER JOBS.]

Compact GearBoss SportCarts can be used as part of a larger GearBoss installation or as a mobile, stand-alone solution. They are designed for use in small spaces and for sports that require less storage. Four heavy-duty, 5” swivel casters make mobility a snap. The nimble SportCart will navigate narrow hallways, shorter door openings and most elevators. It’s the small-space storage solution.
GEARBOSS® SHELVING

USAGE
Easy way to create durable storage for music, theatre and athletic programs

CONSTRUCTION
• Cantilever design keeps the floor open for carts and flexible use
• Holes at 1” (2.5 cm) increments provide easy adjustability
• Each bay is load-rated at 1,000 lbs (450 kg) (if installation instructions are strictly followed)
• Spans doors and windows, if necessary
• Easy to install and relocate
• Shelves are adjustable by hand – no tools required
• Uprights and mounting brackets are zinc-plated to avoid rust
• Available in bays 4’w x 8’h (122 cm x 244 cm)
• Shelf supports are 14-gauge 7/8” (2.2 cm) square tube-steel with silver powder coat paint finish
• Aluminum shelf fronts feature a 3/8” (1 cm) lip to retain a hardboard insert or work surface option
• Ten-year warranty

OPTIONS
• 17½” (44.5 cm) and 30½” (77.5 cm) depth shelves
• Garment bar • lock box • work surface • drawer

RACK 'N ROLL® GARMENT RACK

This is the easy, smart way to move your bulky garments, costumes and props from storage to rehearsal or performance for a fast change. The Rack 'n Roll garment rack is heavy-duty enough to hold a full wardrobe but designed so efficiently it can easily roll through standard doorways or elevators. Now you can keep your valuable investments off the floor when you need to move them — so no more soiled or torn costumes. Garment racks are available in both a 4' (1.2 m) and 6' (1.8 m) model. They can be easily disassembled without tools.

USAGE
The perfect way to move bulky costumes, robes, and concert wear

CONSTRUCTION
• Extremely easy and quick to assemble or take apart. No tools required
• 14-gauge steel bottom shelf and 16-gauge steel top shelf for extreme durability. Black powder coat paint finish
• Two all-swivel and two rigid non-marking casters for easy maneuvering
• Hanger bar is constructed of 11-gauge 1¼" (3 cm) round tubing Uprights constructed of 13-gauge 1½" (4 cm) round tubing
• Basket organizes smaller items and folds flat when not in use (included)
• Fits through standard 32" (81 cm) doors
• 4' (1.2 m) model designed for use in passenger elevators (minimum elevator size: 5' (1.5 m))
• Optional accessories: Additional folding basket, costume dividers, dust cover, privacy screen and hanger retainer clips

STORAGE
• Stores compactly. Allow 70½" (1.8 m) for height. 4’ (1.2 m) model stores in 24” x 50” (.6 m x 1.3 m) floor space. 6’ model (1.8 m) model stores in 24” x 73½” (.6 m x 1.8 m) floor space

ORDERING INFORMATION
028B001  4’ (1.2 m) Rack ‘n Roll, 140 lbs (63 kg)
028B002  6’ (1.8 m) Rack ‘n Roll, 163 lbs (73 kg)
